BCP DEPOSIT OUTPERFORMANCE BOND 6

This innovative bond from BCP is designed to offer investors access to a term-deposit structure that provides a potential rate of interest above that being offered by comparable low-risk bank deposits in the current market.

BCP offer a range of capital secure investment solutions in the Irish market on a consistent basis. The typical BCP Bond is designed to provide secure access to the performance of leading global fund managers with strong participation rates and the potential to match, or exceed, the returns being provided by comparable open-end investment funds. BCP currently have a full range of such bonds available in the market covering investments across multiple assets classes, fund managers, investment styles and potential performance drivers.

The **BCP Deposit Outperformance Bond 6** has been designed with a different remit. Using the same product construction process, the Bond utilises one of the leading funds identified by the BCP Investment Committee, the Aviva Investors Multi-Strategy (AIMS) Target Return Fund, and combines the performance of the fund and a lower participation rate (50%) in order to provide investors with a product that has the ability to outperform deposit rates within a 100% capital secure solution. The AIMS Fund is focused on delivering steady long-term capital growth via a globally diversified target-return strategy.

WHAT IS MULTI-STRATEGY TARGET RETURN?

The AIMS Target Return Fund draws on the Aviva investment team's global investment expertise and has the following core objectives:

- A targeted average gross annual return of 5% above the European Central Bank Base Rate over any rolling three year period in all market conditions
- A focus on steady long-term capital growth with the aim of being less than half as volatile as global equities
- A global multi-strategy fund that is free from benchmark constraints

Multi-Strategy investing is different to traditional investing in many ways. While some funds deliver returns by investing in mixtures of asset classes, this fund seeks to deliver returns by identifying investment ideas and opportunities across and within asset classes. This provides the fund with many ways to reflect the team's ideas more precisely than is possible in traditional funds.

To meet the fund's objectives, the fund managers pick diverse strategies that can take views on asset classes, sectors, currencies, interest rates, inflation and volatility. The managers pick a range of strategies that are expected to work well together whether markets are rising or falling so the fund can meet its aims of delivering performance, preserving capital and managing volatility.

CURRENT DEPOSIT RATE ENVIRONMENT

For a number of factors the rates of interest being offered by traditional deposit institutions such as the Irish banks and An Post are at historically low levels. As you can see in the following table, low risk investors are not being offered rates of interest comparable with historical averages or reflective of the demand for moderate, low-risk returns.

Deposit Provider	Interest Rate	Term	Category of Account
Bank of Ireland	1.12% AER	5 years	Fixed Term Deposit
An Post	0.99% AER*	4 years	National Solidarity Bond
An Post	1.24% AER*	5.5 years	Savings Certificate

MINIMUM INVESTMENT €20,000 | CLOSING DATE 5TH JULY 2016

BCP DEPOSIT OUTPERFORMANCE BOND 6

Your entire investment is allocated to the BCP Deposit Outperformance Bond 6. At the end of the 6 year term, the Bond will pay 100% of the Remaining Capital (original investment amount less any withdrawals made on the Early Exit Date) invested plus 50% of the Performance achieved by the AIMS Target Return Fund over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the AIMS Target Return Fund is 40% over the term of the Bond, the return to investors will be 100% of the Remaining Capital invested plus 20% (40% x 50%) giving a Gross Return of 20%. As the 20% return in this case is above the 15% Performance Fee hurdle rate, a 1% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 19% paid to investors. This is equivalent to 3.2% per annum (CAR 2.9%) (11.2% after DIRT at 41% (CAR 1.8%)). Even if the Performance of the Fund is negative over the term of the Bond, 100% of the Remaining Capital invested will be returned.

PERFORMANCE FEES

If at the end of the 6 year term the Gross Return of the Bond is 15% or greater, then a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP. If you avail of the early exit option after 3 years and the gross return of the Bond is 7.5% or greater, a Performance Fee of 0.5% will be deducted from the Gross Return and paid to BCP. The Performance Fee is paid in addition to the initial fee paid to BCP and your intermediary, where applicable, as described in the Key Features on page 6.

EARLY EXIT OPTION

BCP has negotiated an early exit facility whereby you may encash up to 100% of your investment on the 3rd anniversary of the Bond at its realisable value, subject to a minimum of €10,000. Capital security will not apply to this encashment. The realisable value of the capital withdrawal may be more or less than the capital secure amount, depending on whether the growth earned by the Bond is greater or less than the early exit break costs.

Warning: The figures above are provided only to show how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the actual performance of the Fund which cannot be predicted in advance. There is no guarantee that any interest will be payable at the end of the investment term.

Warning: Past performance is not a reliable guide to future performance.

Warning: The value of your investment may go down as well as up. If you encash at the 3 year Early Exit Date, capital security will not apply to the portion of your investment being encashed. The encashment amount may be more or less than the capital secure amount.

Warning: If you invest in this product you will not have any access to your money for 3 years and/or 6 years.

Warning: The return on your investment in this product may be affected by changes in currency exchange rates.

BCP DEPOSIT OUTPERFORMANCE BOND 6

KEY FEATURES

The product producer of the BCP Deposit Outperformance Bond 6 is BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4.

HOW DOES THE BOND WORK?

YOUR entire investment is allocated to the BCP Deposit Outperformance Bond 6. At the end of the term, the percentage performance (gain or loss) of the Fund is calculated. This performance if positive, will be multiplied by 50% and added to the remaining capital invested to determine the Gross Return of the Bond. The Bond offers 100% capital security at maturity.

SUITABILITY | The Bond is not suitable for investors who require regular income or require access to their capital before maturity. The Bond is suitable only as a capital growth investment. The return on the Bond will depend on the Performance of the Fund and will only be determined at the end of the term. No withdrawals may be made before the Early Exit Date on 12th July 2019, or at maturity of the Bond on 12th July 2022. Your money is not invested in the Fund, therefore, you do not benefit from any dividends distributed by the Fund but you will benefit from dividends and income earned within the Fund during the term of the Bond. In order to protect the performance of the Fund from volatility towards the end of the term, the Final Price will reflect the average Fund level on a monthly basis over the final 18 months of the term. The effect of averaging is to protect returns where performance is falling but conversely it may restrict growth where performance is rising. A Performance Fee of 1% will be deducted if the Gross Return of the Bond is 15% or higher at maturity. If you avail of the early exit option after 3 years and the gross return of the Bond is 7.5% or greater, a Performance Fee of 0.5% will be deducted from the Gross Return and paid to BCP. The return on your investment in this product may be affected by changes in currency exchange rates.

CAPITAL SECURITY | Capital security at maturity is provided by Investec Bank plc. (Irish Branch). In the event Investec fails to meet its liabilities, you could lose some or all of your money if your investment is not fully covered by the UK Financial Services Compensation Scheme (FSCS). See section 19 of the Terms and Conditions for further details.

WHERE DOES MY INVESTMENT IN THE BCP DEPOSIT OUTPERFORMANCE BOND 6 GO?

The paragraph below displays how the investment is structured for a hypothetical €10,000 investor.

The BCP Deposit Outperformance Bond 6 provides 100% capital security by placing 94.2% or €9,420 of your investment amount on deposit. This amount will grow to 100% or €10,000 by the end of the 6 year Term.

This Bond offers a return of 50% of the Performance of the Fund less any Performance Fee. 2.75% or €275 of your investment amount will be used to purchase this return. If the Performance of the Fund is negative at the end of the 6 year Term, you will receive 100% of your Remaining Capital invested. This payment represents a 0% gain (CAR 0%) on your investment over the period.

BCP will receive a fee of 1.55% or €155 for manufacturing, distributing and administering the Bond, equivalent to 0.26% per annum. A fee of 1.5% or €150 is payable to your intermediary, equivalent to 0.25% per annum; this is payable to BCP if you do not deal with us through an intermediary. As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees above if the Gross Return of the Bond is 15% or more at maturity. If you avail of the early exit option after 3 years and the gross return of the Bond is 7.5% or greater, a Performance Fee of 0.5% will be deducted from the Gross Return and paid to BCP.

DO I HAVE ACCESS TO MY INVESTMENT?

You may encash your investment on the 3rd anniversary of the commencement date of the

Bond (12th July 2019) at its realisable value, subject to a minimum of €10,000. As capital security is provided only at the end of the 6 year Term, the realisable value of the capital withdrawal may be more or less than the capital secure amount, depending on whether the growth earned by the Bond is greater or less than the early exit break costs. BCP will contact you in advance of the 3rd anniversary to provide an indicative exit price. You will have the option to withdraw up to 100% of your investment at its realisable value or to switch your early exit proceeds to a new investment. You have the right to cancel your application for the Bond within two weeks of the date you sign it but no later than the Closing Date.

WHAT HAPPENS IF I DIE BEFORE THE BOND MATURES?

In the event of the death of a sole investor prior to the expiry of the Term:

- a) the Bond may be transferred into the names of the deceased investor's personal representatives or of any other person nominated by such personal representatives, or
- b) the Bond may be redeemed, subject to normal probate regulations, at its realisable value as determined by BCP based on a calculation by the Bank. The redeemable amount will be calculated primarily by reference to the market value of the assets, the remaining term to maturity, and the prevailing interest rates at the time. The amount redeemed may be more or less than the Remaining Capital secure amount.

Where the Bond is held in joint names it will, upon the death of one of the investors and upon production of such evidence of death as BCP or

the Bank may require, be transferred into the name(s) of the surviving investor(s).

Where an investment is made on behalf of a self-directed or self-administered pension plan, in the event of death of a member prior to the expiry of the Term, the Bond may be redeemed at its realisable value as determined by BCP based on a calculation by the Bank which may be more or less than the Remaining Capital invested. The proceeds from such redemption will be paid to the trustees of the plan, or the investing Life Company as appropriate. Early redemption fees may apply in the event of an early exit outside of the 3 year early exit.

WHAT ABOUT TAX?

Under current legislation, the gross interest earned on the Bond will be paid after deduction of DIRT at 41%. This will apply at maturity and will be deducted at source. However, certain non-resident investors, credit unions, charities, pensions and companies may apply to receive returns gross without deduction of tax.

The Finance Act 2007 (as amended by the Finance Act 2011), allows the operation of DIRT free accounts for investors aged 65 years or over, whose income is under €18,000 or €36,000 for married couples.

Investors should satisfy themselves in relation to Revenue reporting requirements and the implications of non-disclosure. PRSI may be payable on deposit interest earned. PRSI does not generally apply to individuals who have reached the State retirement age. Where applicable, the current PRSI rate is 4% which is payable by the Investor in the relevant tax year.
