## ABOUT THE INDEX

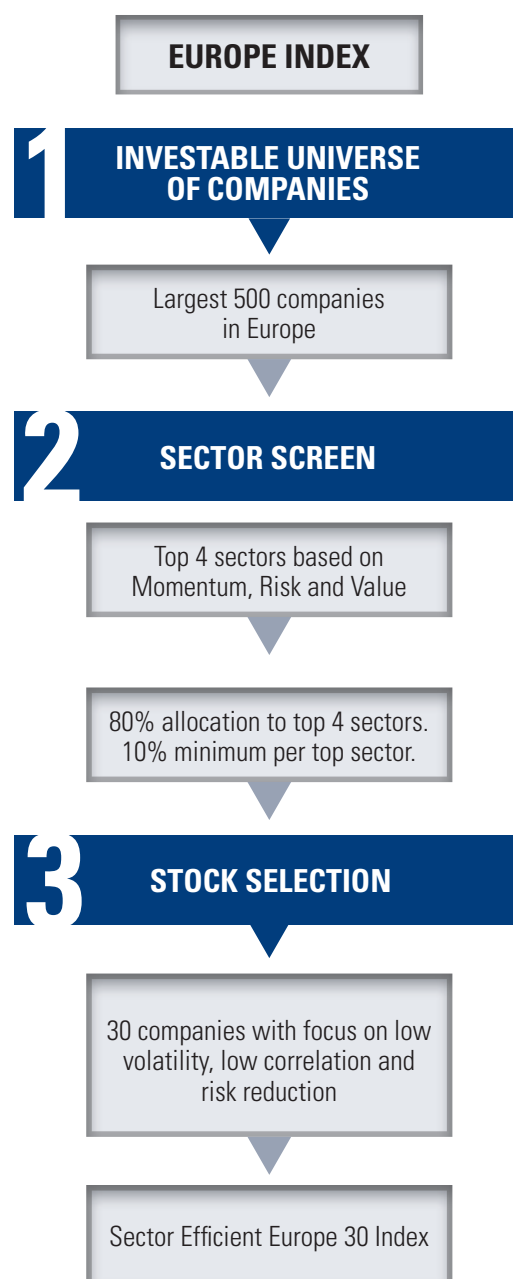

The underlying index has been developed by leading equity index providers, the Finvex Group. Finvex were established in 2009 and their methodology is focused on reduction of investment risk and enhanced stability of returns.

## EFFICIENT SECTOR SELECTION

- The selection of the top 4 sectors is done on a quarterly basis and aims to select the sectors with the most attractive scores in terms of "Momentum", "Value" and "Risk"
- The stocks are principally selected from these top sectors (at least 24 stocks) on the basis of risk analysis with the main focus on low downside volatility, reduced tail risk, improved diversification features and high liquidity
- The index is reviewed and rebalanced on a quarterly basis to keep attractive sectors and stocks with the lowest possible risk.

## INDEX CONSTRUCTION METHODOLOGY:

Each company is given an equal weighting and the index is rebalanced on a quarterly basis.

## HOW RETURNS ARE CALCULATED:

### EUROPEAN EQUITY INDEX BOND 10 GROWTH PLUS VERSION

If the Performance of the Index is 40% over the term of the Bond, the return to investors will be 90% of the capital invested plus 56% ( $40\% \times 140\%$ ) giving a Gross Return of 46%. As the 46% return in this case is above the 40% Performance Fee hurdle rate, a 2% Performance Fee will be paid to BCP with a return of 44% paid to investors. This is equivalent to 8.8% per annum (CAR 7.6%) (26.0% after DIRT at 41% (CAR 4.7%)). If the Performance of the Index is less than 7.1% over the term of the Bond, between 90% and 100% of the capital invested will be returned.

### EUROPEAN EQUITY INDEX BOND 10 GROWTH VERSION

If the Performance of the Index is 40% over the term of the Bond, the return to investors will be 95% of the capital invested plus 32% ( $40\% \times 80\%$ ) giving a Gross Return of 27%. As the 27% return in this case is above the 18% Performance Fee hurdle rate, a 1% Performance Fee will be paid to BCP with a return of 26% paid to investors. This is equivalent to 5.2% per annum (CAR 4.7%) (15.3% after DIRT at 41% (CAR 2.9%)). Even if the Performance of the Index is negative over the term of the Bond, 95% of the capital invested will be returned.

**Warning: The figures above are provided only to show how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the version of the Bond you invest in and the actual performance of the Index which cannot be predicted in advance.**

## PERFORMANCE FEES

If at the end of the 5 year term the Gross Return of a Bond version is between 18% and 39.99%, then a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP in respect of that version. If at the end of the Term the Gross Return of the Bond is 40% or greater, then a Performance Fee of 2% will be paid to BCP in respect of that version. The Performance Fee is paid in addition to the initial fee paid to BCP and the intermediary, where applicable, as described in the Key Features on page 6.

# BCP EUROPEAN EQUITY INDEX BOND 10

## KEY FEATURES

## HOW DOES THE BOND WORK

**T**he product producer of the BCP European Equity Index Bond 10 is BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4.

Your entire investment is allocated to a 5 year Bond which tracks the performance of the Finvex Sector Efficient Europe 30 Index. At the end of the Term, the percentage performance (gain or loss) of the Index is calculated. This performance will then be multiplied by 140% (Growth Plus Version) or 80% (Growth Version) and added to the capital secure amount to determine the Gross Return of the Bond version. Please refer to the examples on page 4 for further details. The Growth Plus and Growth Versions offer 90% and 95% capital security at maturity respectively.

**SUITABILITY:** The Bond is not suitable for investors who require regular income or require access to their capital before maturity. The Bond is suitable only as a capital growth investment. The return on the Bond will depend on the performance of the underlying Index and will only be determined at the end of the Term. No withdrawals may be made before maturity on 27th September 2021. Your money is not invested in the Index, therefore, you do not benefit from any dividends distributed by the Index. In order to protect the performance of the Index from volatility in stock markets towards the end of the term, the Final Price will reflect the average Index level on a monthly basis over the final 18 months of the term. The effect of averaging is to protect returns in a falling market but conversely it may restrict growth in a rising market. A Performance Fee of 1% will be deducted if the Gross Return of a Bond version is between 18% and 39.99% at maturity. If the Gross Return of a Bond version is 40% or higher then a Performance Fee of 2% will be paid to BCP at maturity. The return on this product may be affected by changes in currency exchange rates.

**CAPITAL SECURITY:** Capital security at maturity is provided by Bank of Ireland. In the event Bank of Ireland fails to meet its liabilities, you could lose some or all of your money. Note your investment is not covered by the Deposit Guarantee Scheme.

The Growth Plus Version offers a return of 140% of the performance of the underlying index, less the 10% capital at risk, less any Performance Fee. 8.68% or €868 of your investment amount will be used to purchase this return. There is no limit to the return that can be earned on the Growth Plus Version of the European Equity Index Bond 10. If the Performance of the Index is negative at the end of the Term, you will receive 90% of your capital invested. This payment represents a 10% loss (CAR -2.1%) on your investment over the period.

As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is between 18% and 39.99% at maturity. If the Gross Return on this version of the Bond is 40% or more, then a Performance Fee of 2% will be paid to BCP at maturity.

### WHERE DOES MY INVESTMENT IN THE BCP EUROPEAN EQUITY INDEX BOND 10 - GROWTH VERSION GO?

The paragraph below displays how the investment is structured for a hypothetical €10,000 investor.

The Growth Version provides 95% capital security by placing 91.65% or €9,165 of your investment amount on deposit. This amount will grow to 95% or €9,500 by the end of the 5 year Term.

The Growth Version offers a return of 80% of the performance of the underlying index, less the 5% capital at risk, less any Performance Fee. 4.96% or €496 of your investment amount will be used to purchase this return. There is no limit to the return that can be earned on the Growth Version of the European Equity Index Bond 10. If the Performance of the Index is negative at the end of the Term, you will receive 95% of your capital invested. This payment represents a 5% loss (CAR -1.0%) on your investment over the period.

A fee of 2% or €200 is payable to your intermediary, equivalent to 0.40% per annum; this is payable to BCP if you do not deal with us through an intermediary. As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees

above if the Gross Return on this version of the Bond is between 18% and 39.99% at maturity. If the Gross Return on this version of the Bond is 40% or more, then a Performance Fee of 2% will be paid to BCP at maturity.

### DO I HAVE ACCESS TO MY INVESTMENT?

No withdrawals may be made before the maturity of the Bond on 27th September 2021. You have the right to cancel your application for the Bond within two weeks of the date you sign it but no later than the Closing Date.

In the event of the death of a sole investor prior to the expiry of the Term:

- a) the Bond may be transferred into the names of the deceased investor's personal representatives or of any other person nominated by such personal representatives, or
- b) the Bond may be redeemed, subject to normal probate regulations, at their realisable value as determined by BCP based on a calculation by the Bank. The redeemable amount will be calculated primarily by reference to the market value of the assets, the remaining term to maturity, and the prevailing interest rates at the time. The amount redeemed may be more or less than the capital secure amount.

Where the Bond is held in joint names they will, upon the death of one of the investors and upon production of such evidence of death as BCP or the Bank may require, be transferred into the name(s) of the surviving investor(s). Where an investment is made on behalf of a self-directed or self-administered pension plan, in the event of death of a member prior to the expiry of the Term, the Bond may be redeemed at their realisable value as determined by BCP based on a calculation by the Bank which may be more or less than the capital secure amount. The proceeds from such redemption will be paid to the trustees of the plan, or the investing Life Company as appropriate. Early redemption fees may apply on any early exit from this investment.

### WHAT ABOUT TAX?

Under current legislation, the gross interest earned on the Bond will be paid after deduction of DIRT at 41%. This will apply at maturity and will be deducted at source. However, certain non-resident investors, credit unions, charities, pensions and companies may apply to receive returns gross without deduction of tax. The Finance Act 2007 (as amended by the Finance Act 2011), allows the operation of DIRT free accounts for investors aged 65 years or over, whose income is under €18,000 or €36,000 for married couples.

Investors should satisfy themselves in relation to Revenue reporting requirements and the implications of non-disclosure.
