BCP GLOBAL MEGATRENDS BOND 3

The BCP Global Megatrends Bond 3 offers investors access to the performance of an innovative global equity index developed by Solactive, in conjunction with Bank of America. The Global Megatrends Index ('the Index') is a thematic index of 50 companies who are considered leaders in industry sectors that are expected to define our future in the context of a global transforming world. This thematic index focuses on 5 broad investment themes covering Earth, Government, Innovation, Markets and People.

THE GLOBAL MEGATRENDS INDEX

Megatrends are fundamental developments in demographics and technology which are expected to transform the world in the coming years. They are global 'big picture' themes and identifying these global trends is important for investors focused on a longer investment time horizon. The Index provides exposure to the 10 identified megatrends out of a selection of 30 industry sectors which are deemed most likely to be positively impacted by them.

The industry-leading thematic investment research team at Bank of America Merrill Lynch have identified 10 key global megatrends, and the companies and sectors that are exposed to them.

	Megatrends	
1	Obesity and Wellness	Globally over 2 billion people are overweight. The impact on the economy is significant and may be the most pressing health challenge facing the world today. The health and wellness food industry is a growing market.
2	Climate Change	Climate change impacts financial stability around the world and is high on the political and economic agenda. Clean technology and clean energy is generating significant investment and is the long term solution to global energy concerns.
3	Food Security	World population is expected to grow from 7.4bn to 9.6bn by 2050. Currently over 800 million people are going hungry and as a result the food and agriculture industries are seeing significant investment and innovation.
4	Longevity	Over 65's will outnumber children under 5 for the 1st time in history by 2047. Longevity risk is hugely underestimated with, for example, huge challenges facing retirement systems over the coming decades, and there are opportunities for investment in areas such as pharma, healthcare and financials.
5	Millennials	There are approx. 2 billion millennials (born 1980-1996) globally. They have overtaken baby boomers as the leading US demographic and this has led to opportunities in tech, consumer, health and financials.
6	Education	According to UNESCO every \$1 invested in education generates \$10-\$15 in economic returns and spending on education is expanding rapidly in the developed and emerging world.
7	Safety	Adoption of workplace safety technology and further advances in car safety will help reduce the high number of people killed at work and in road accidents (4.5m globally) every year.
8	Energy Efficiency	Energy demand is set to grow by 33% by 2035. 80% of energy is lost along the value chain. There are increasingly tough global fuel economy and emissions regulations leading to opportunities in autos, smart grid, energy storage and transport.
9	Waste	70% of global waste is landfilled and volumes are set to double by 2025 from 2005 levels. Opportunities exist in waste management, industrial treatment, recycling and packaging.
10	Water	Almost 800 million people lack access to clean drinking water. 50% of the world population will be living in 'water stress' by 2030. As global freshwater scarcity worsens there is increasing need to find innovative solutions and significantly increase investment.

INVESTORS HAVE TWO BOND VERSIONS TO CHOOSE FROM WITHIN THIS STRUCTURE. THESE HAVE BEEN DESIGNED TO CATER FOR VARYING RISK AND RETURN REQUIREMENTS OF INDIVIDUAL INVESTORS:

BCP GLOBAL MEGATRENDS BOND 3 GROWTH PLUS VERSION

At the end of the 5 year Term, the Growth Plus Version will pay 90% of the capital invested plus 150% of the Performance achieved by the Global Megatrends Index over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the Index is 50% over the term of the Bond, the return to investors will be 90% of the capital invested plus 75% (50% x 150%) giving a Gross Return of 65%. As the 65% return in this case is above the 40% Performance Fee hurdle rate, a 2% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 63% paid to investors. This is equivalent to 12.6% per annum (CAR 10.3%) (37.2% after DIRT at 41% (CAR 6.5%)). Even if the Performance of the Index is negative over the term of the Bond, 90% of the capital invested will be returned.

BCP GLOBAL MEGATRENDS BOND 3 GROWTH VERSION

At the end of the 5 year Term, the Growth Version will pay 95% of the capital invested plus 80% of the Performance achieved by the Global Megatrends Index over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the Index is 50% over the term of the Bond, the return to investors will be 95% of the capital invested plus 40% (50% x 80%) giving a Gross Return of 35%. As the 35% return in this case meets the 18% Performance Fee hurdle rate, a 1% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 34% paid to investors. This is equivalent to 6.8% per annum (CAR 6.0%) (20.1% after DIRT at 41% (CAR 3.7%)). Even if the Performance of the Index is negative over the term of the Bond, 95% of the capital invested will be returned.

PERFORMANCE FEES

If at the end of the 5 year Term the Gross Return of the Bond Version is between 18% and 39.99%, then a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP. If at the end of the 5 year Term the Gross Return of the Bond Version is 40% or greater, then a Performance Fee of 2% will be paid to BCP in respect of that version. The Performance Fee is paid in addition to the initial fee paid to BCP and your intermediary, where applicable, as described in the Key Features on page 6.

Warning: The figures above are provided only to show how the Bond works; they should not be taken as an indication of potential returns. BCP GLOBAL MEGATRENDS BOND 3

KEY FEATURES

HOW DOES THE BCP GLOBAL MEGATRENDS BOND 3 WORK?

The product producer of the BCP Global Megatrends Bond 3 is BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4.

Your entire investment is allocated to a 5 year Global Megatrends Bond 3. At the end of the 5 year Term, the percentage Performance (gain or loss) of the Index is calculated. This performance will then be multiplied by 150% (Growth Plus Version) or 80% (Growth Version), to determine the interest to be added to the capital secure amount in each bond version. The Growth Plus and Growth Versions offer 90% and 95% capital security respectively.

SUITABILITY | The Bond is not suitable for investors who require regular income or require access to their capital before maturity. The Bond is suitable only as a capital growth investment. The return on the Bond will depend on the Performance of the Index and will only be determined at the end of the 5 year Term. No withdrawals may be made before the maturity of the Bond on 21st December 2021. Your money is not invested in the Index, therefore, you do not benefit from any dividends paid by the Index. In order to protect the performance of the Index from volatility towards the end of the term, the Final Price will reflect the average price of the Index on a monthly basis over the final 18 months of the 5 year Term. The effect of averaging is to protect returns in a falling market but conversely it may restrict growth in a rising market. A Performance Fee of 1% will be deducted if the Gross Return of a Bond Version is between 18% and 39.99% at maturity. If the Gross Return of a Bond Version is 40% or higher then a Performance Fee of 2% will be paid to BCP at maturity. The return on this product may be affected by changes in currency exchange rates.

CAPITAL SECURITY | Capital security at maturity is provided by Bank of Ireland. In the event Bank of Ireland fails to meet its liabilities, you could lose some or all of your money. Note your investment is not covered by the Deposit Guarantee Scheme.

WHERE DOES MY INVESTMENT IN THE BCP GLOBAL MEGATRENDS BOND 3 GO?

The paragraph below displays how the investment is structured for a hypothetical €10,000 investor.

GROWTH PLUS VERSION

The Growth Plus Version provides 90% capital security by placing 86.73% or €8,673 of your investment amount on deposit. This amount will grow to 90% or €9,000 by the end of the 5 year Term. The Bond offers a return of 150% of the positive Performance of the underlying Index, less the 10% capital at risk, less any Performance Fee. 9.82% or €982 of your investment amount will be used to purchase this return. If the Performance of the Index is negative at the end of the 5 year Term, you will receive 90% of your capital invested. This payment represents a 10% (CAR -2.1%) loss on your investment over the period. BCP will receive a fee of 1.45% or €145 for manufacturing, distributing and administering the Bond, equivalent to 0.29% per annum. A fee of 2% or €200 is payable to your intermediary, equivalent to 0.4% per annum; this is payable to BCP if you do not deal with us through an intermediary. As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is between 18% and 39.99% at maturity. If the Gross Return on this version of the Bond is 40% or more then a Performance Fee of 2% will be paid to BCP at maturity.

GROWTH VERSION

The Growth Version provides 95% capital security by placing 91.83% or €9,183 of your investment amount on deposit. This amount will grow to 95% or €9,500 by the end of the 5 year Term. The Bond offers a return of 80% of the positive Performance of the underlying Index, less the 5% capital at risk, less any Performance

Fee. 5.24% or €524 of your investment amount will be used to purchase this return.

If the Performance of the Index is negative at the end of the 5 year Term, you will receive 95% of your capital invested. This payment represents a 5% (CAR -1.0%) loss on your investment over the period.

BCP will receive a fee of 0.93% or €93 for manufacturing, distributing and administering the Bond, equivalent to 0.19% per annum. A fee of 2% or €200 is payable to your intermediary, equivalent to 0.40% per annum; this is payable to BCP if you do not deal with us through an intermediary. As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is between 18% and 39.99% at maturity. If the Gross Return on this version of the Bond is 40% or more then a Performance Fee of 2% will be paid to BCP at maturity.

DO I HAVE ACCESS TO MY INVESTMENT?

No withdrawals may be made before the maturity of the Bond on 21st December 2021. You have the right to cancel your application for the Bonds within two weeks of the date you sign it but no later than the Closing Date.

WHAT HAPPENS IF I DIE BEFORE THE BOND MATURES?

In the event of the death of a sole investor prior to the expiry of the 5 year Term:

- a) the Bond may be transferred into the name(s) of the deceased investor's personal representatives or of any other person nominated by such personal representatives, or
- b) the Bond may be redeemed, subject to normal probate regulations, at its realisable value as determined by BCP based on a calculation by the Bank. The redeemable amount will be calculated primarily by

reference to the market value of the assets, the term to maturity, and the prevailing interest rates at the time. The amount redeemed may be more or less than the capital secure amount.

Where the Bond is held in joint names it will, upon the death of one of the investors and upon production of such evidence of death as BCP or the Bank may require, be transferred into the name(s) of the surviving investor(s).

Where an investment is made on behalf of a self-directed or self administered pension plan, in the event of death of a member prior to the expiry of the 5 year Term, the Bond may be redeemed at its realisable value as determined by BCP based on a calculation by the Bank which may be more or less than the capital secure amount. The proceeds from such redemption will be paid to the trustees of the plan, or the investing Life Company as appropriate.

Early redemption fees may apply on any early exit from this investment.

WHAT ABOUT TAX?

Under current legislation, the gross interest earned on the Bond will be paid after deduction of DIRT at 41%. This will apply at maturity and will be deducted at source. However, certain non resident investors, credit unions, charities, pensions and companies may apply to receive returns gross without deduction of tax.

The Finance Act 2007 (as amended by the Finance Act 2011), allows the operation of DIRT free accounts for investors aged 65 years or over, whose income is under €18,000 or €36,000 for married couples.

Investors should satisfy themselves in relation to Revenue reporting requirements and the implications of non-disclosure.

PRSI may be payable on deposit interest earned. PRSI does not generally apply to individuals who have reached the State retirement age. Where applicable, the current PRSI rate is 4% which is payable by the investors in the relevant tax year.
