THE INVESTMENT STRATEGY

The objective of the Fund is to achieve capital appreciation while closely controlling risk. The fund managers believe that markets are not fully efficient and that share prices diverge from their fundamental value due to investors' behavioural biases. The Old Mutual team builds a diversified portfolio of companies that is expected to outperform in the current macroeconomic environment while applying stringent risk-management techniques and maintaining strict limits on sector and stock positions.

Each stock in the investment universe is evaluated based on 5 key characteristics to determine whether the company is suitable for inclusion in the fund and how much weight it should be given if selected. As a result the investment strategy is a blend of value, growth, momentum and quality and this blend will vary depending on the prevailing market environment.

- 1. Dynamic Valuation:** The Fund blends a sophisticated valuation model with measures of stock quality and seeks attractive valuations considering both historic and forecast information.
- 2. Sustainable Growth:** The Fund seeks strong but stable growth characteristics and protection from downturns in economic growth cycles.
- 3. Analyst Sentiment:** Markets react to analyst predictions. The Fund captures behavioural aspects of the reaction to analyst forecasts, and highlights short-term opportunities.
- 4. Company Management:** Evidence of strong management teams making good investment decisions and efficient use of capital.
- 5. Market Dynamics:** The Fund looks for stable trends that are likely to persist and avoiding bubbles by looking for trends with fundamental support.

BCP GBP GLOBAL EQUITY ABSOLUTE RETURN BOND 3

WHY AN ABSOLUTE RETURN GLOBAL EQUITY STRATEGY?

Global equity markets rallied strongly from the bottom of the financial crisis in March 2009 up to the middle of 2015. Since then markets have endured higher levels of volatility as concerns have arisen over the strength of the global economic recovery. This volatility has led to large withdrawals from the equity markets over short periods of time and given the uncertainty surrounding future equity market growth we believe it is an appropriate time within a diversified portfolio to make an allocation to an absolute return global equity strategy that targets moderate and consistent positive returns at low levels of volatility.

INVESTORS HAVE TWO BOND VERSIONS TO CHOOSE FROM WITHIN THIS STRUCTURE. THESE HAVE BEEN DESIGNED TO CATER FOR VARYING RISK AND RETURN REQUIREMENTS OF INDIVIDUAL INVESTORS:

BCP GBP GLOBAL EQUITY ABSOLUTE RETURN BOND 3 **GROWTH PLUS VERSION**

At the end of the 5 year Term, the Growth Plus Version will pay 90% of the capital invested plus 220% of the Performance achieved by the Old Mutual Global Equity Absolute Return (GEAR) Fund over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the Old Mutual GEAR Fund is 40% over the term of the Bond, the return to investors will be 90% of the capital invested plus 88% (40% x 220%) giving a Gross Return of 78%. As the 78% return in this case is above the 40% Performance Fee hurdle rate, a 2% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 76% paid to investors. This is equivalent to 15.2% per annum (CAR 12.0%) (44.8% after DIRT at 41% (CAR 7.7%)). Even if the Performance of the Fund is negative over the term of the Bond, 90% of the capital invested will be returned.

BCP GBP GLOBAL EQUITY ABSOLUTE RETURN BOND 3 **PROTECTED VERSION**

At the end of the 5 year Term, the Protected Version will pay 100% of the capital invested plus 60% of the Performance achieved by the Old Mutual GEAR Fund over the investment term. There is no limit to the maximum return that can be earned from this Bond. If the Performance of the Old Mutual GEAR Fund is 40% over the term of the Bond, the return to investors will be 100% of the capital invested plus 24% (40% x 60%) giving a Gross Return of 24%. As the 24% return in this case is above the 18% Performance Fee hurdle rate, a 1% Performance Fee will be deducted from the Gross Return and paid to BCP with a return of 23% paid to investors. This is equivalent to 4.6% per annum (CAR 4.2%) (13.6% after DIRT at 41% (CAR 2.6%)). Even if the Performance of the Fund is negative over the term of the Bond, 100% of the capital invested will be returned.

PERFORMANCE FEES

If at the end of the 5 year Term the Gross Return of the Bond is between 18% and 39.99%, then a Performance Fee of 1% will be deducted from the Gross Return and paid to BCP. If at the end of the 5 year Term the Gross Return of the Bond is 40% or greater, then a Performance Fee of 2% will be paid to BCP in respect of that version. The Performance Fee is paid in addition to the initial fee paid to BCP and your intermediary, where applicable, as described in the Key Features on page 6.

BCP GBP GLOBAL EQUITY ABSOLUTE RETURN BOND 3

KEY FEATURES

HOW DOES THE BCP GBP GLOBAL EQUITY ABSOLUTE RETURN BOND 3 WORK?

The product producer of the BCP GBP Global Equity Absolute Return Bond 3 is BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4.

Your entire investment is allocated to a 5 year GBP Global Equity Absolute Return Bond 3. At the end of the 5 year Term, the percentage performance (gain or loss) of the Fund is calculated. This performance will then be multiplied by 220% (Growth Plus Version) or 60% (Protected Version), to determine the interest to be added to the capital secure amount in each bond version. The Growth Plus and Protected Versions offer 90% and 100% capital security respectively.

SUITABILITY | The Bond is not suitable for investors who require regular income or require access to their capital before maturity. The Bond is suitable only as a capital growth investment. The return on the Bond will depend on the Performance of the Fund and will only be determined at the end of the 5 year Term. No withdrawals may be made before the maturity of the Bond on 16th December 2021. Your money is not invested in the Fund, therefore, you do not benefit from any dividends paid by the Fund, but you will benefit from the dividends and income earned within the Fund during the term of the Bond. In order to protect the performance of the Fund from volatility towards the end of the term, the Final Price will reflect the average price of the Fund on a monthly basis over the final 12 months of the 5 year Term. The effect of averaging is to protect returns in a falling market but conversely it may restrict growth in a rising market. A Performance Fee of 1% will be deducted if the Gross Return of a Bond Version is between 18% and 39.99% at maturity. If the Gross Return of a Bond Version is 40% or higher then a Performance Fee of 2% will be paid to BCP at maturity. All payments to and from this investment are in sterling and you are exposed to currency risk if you exchange to/from euro.

CAPITAL SECURITY | Capital security is provided by Bank of Ireland. In the event Bank of Ireland fails to meet its liabilities, you could lose some or all of your money if your investment is not fully covered by the Deposit Guarantee Scheme. As the Growth Plus Version does not provide 100% capital security, it is not covered by the Deposit Guarantee Scheme.

WHERE DOES MY INVESTMENT IN THE BCP GBP GLOBAL EQUITY ABSOLUTE RETURN BOND 3?

The paragraph below displays how the investment is structured for a hypothetical £10,000 investor.

GROWTH PLUS VERSION

The Growth Plus Version provides 90% capital security by placing 83.38% or £8,338 of your investment amount on deposit. This amount will grow to 90% or £9,000 by the end of the 5 year Term. The Bond offers a return of 220% of the positive Performance of the underlying Fund, less the 10% capital at risk, less any Performance Fee. 12.32% or £1,232 of your investment amount will be used to purchase this return. If the Performance of the Fund is negative at the end of the 5 year Term, you will receive 90% of your capital invested. This payment represents a 10% (CAR -2.1%) loss on your investment over the period. BCP will receive a fee of 2.30% or £230 for manufacturing, distributing and administering the Bond, equivalent to 0.46% per annum. A fee of 2.0% or £200 is payable to your intermediary, equivalent to 0.4% per annum; this is payable to BCP if you do not deal with us through an intermediary. As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is between 18% and 39.99% at maturity. If the Gross Return on this version of the Bond is 40% or more then a Performance Fee of 2% will be paid to BCP at maturity.

PROTECTED VERSION

The Protected Version provides 100% capital security by placing 93.17% or £9,317 of your investment amount on deposit. This amount will grow to 100% or £10,000 by the end of the 5 year Term. The Bond offers a return of 60% of the positive Performance of the underlying Fund, less any Performance Fee. 3.36% or £336

of your investment amount will be used to purchase this return.

If the Performance of the Fund is negative at the end of the 5 year Term, you will receive 100% of your capital invested. This payment represents a 0% (CAR 0%) loss on your investment over the period.

BCP will receive a fee of 1.97% or £197 for manufacturing, distributing and administering the Bond, equivalent to 0.39% per annum. A fee of 1.50% or £150 is payable to your intermediary, equivalent to 0.30% per annum; this is payable to BCP if you do not deal with us through an intermediary. As described previously on page 4, a Performance Fee of 1% will be paid to BCP in addition to the fees above if the Gross Return on this version of the Bond is between 18% and 39.99% at maturity. If the Gross Return on this version of the Bond is 40% or more then a Performance Fee of 2% will be paid to BCP at maturity.

DO I HAVE ACCESS TO MY INVESTMENT?

No withdrawals may be made before the maturity of the Bond on 16th December 2021. You have the right to cancel your application for the Bonds within two weeks of the date you sign it but no later than the Closing Date.

WHAT HAPPENS IF I DIE BEFORE THE BOND MATURES?

In the event of the death of a sole investor prior to the expiry of the Term:

- the Bond may be transferred into the name(s) of the deceased investor's personal representatives or of any other person nominated by such personal representatives, or
- the Bond may be redeemed, subject to normal probate regulations, at its realisable value as determined by BCP based on a calculation by the Bank. The redeemable amount will be calculated primarily by

reference to the market value of the assets, the term to maturity, and the prevailing interest rates at the time. The amount redeemed may be more or less than the capital secure amount.

Where the Bond is held in joint names it will, upon the death of one of the investors and upon production of such evidence of death as BCP or the Bank may require, be transferred into the name(s) of the surviving investor(s).

Where an investment is made on behalf of a self-directed or self administered pension plan, in the event of death of a member prior to the expiry of the 5 year Term, the Bond may be redeemed at its realisable value as determined by BCP based on a calculation by the Bank which may be more or less than the capital secure amount. The proceeds from such redemption will be paid to the trustees of the plan, or the investing Life Company as appropriate.

Early redemption fees may apply on any early exit from this investment.

WHAT ABOUT TAX?

Under current legislation, the gross interest earned on the Bond will be paid after deduction of DIRT at 41%. This will apply at maturity and will be deducted at source. However, certain non resident investors, charities, pensions and companies may apply to receive returns gross without deduction of tax.

The Finance Act 2007 (as amended by the Finance Act 2011), allows the operation of DIRT free accounts for investors aged 65 years or over, whose income is under €18,000 or €36,000 for married couples.

Investors should satisfy themselves in relation to Revenue reporting requirements and the implications of non-disclosure.

PRSI may be payable on deposit interest earned. PRSI does not generally apply to individuals who have reached the State retirement age. Where applicable, the current PRSI rate is 4% which is payable by the investors in the relevant tax year.
