

BCP PVAF - A Class Units

Key Information Document

PURPOSE

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and

losses of this product and to help you compare it with other products.

You are about to purchase a product that is not simple and may be difficult to understand.

PRODUCT

Product Name:	BCP Property Value Add Fund – A Class Units
Product Manufacturer:	BCP Asset Management DAC T/A BCP
Website:	www.bcp.ie
Telephone Number:	(01) 668 4688
Competent Authority:	Central Bank of Ireland
Effective Date:	01 January 2020

WHAT IS THIS PRODUCT?

Legal Form: The BCP Property Value Add Fund is an open-ended (with limited liquidity) Unit Trust, authorised by the Central Bank of Ireland as a Qualifying Investor Alternative Investment Fund ('QIAIF'). It is a sub fund of the BCP Investment Fund Unit Trust.

Type: The Fund is designed to produce long term capital growth by investing in a diverse range of property assets with one common objective; to achieve capital growth through rental growth. The recommended holding period is 7 years. The investment focus will be on prime assets located in areas where BCP expect strong rental growth. In addition to prime real estate the Fund will purchase select redevelopment opportunities, where BCP has an excellent track record.

Objectives: The objective of the Fund is capital growth from a diversified portfolio of direct, and indirect, property assets.

Investment Term: This product has no fixed maturity date. The Recommended Holding Period is 7 years. You may encash the investment at any time (after two years) but the return that you get back is not guaranteed.

Intended Investor: This product has been designed for investors who: have a long term investment horizon (at least 7 years), are seeking capital growth, who can afford to invest their money for at least 2 years, are able to accept the risk of uncertain returns and are able to bear a loss of their capital, have at least €105,000 to invest, and meet the relevant minimum criteria to invest as qualifying investors.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from the future performance at a medium-high level, and poor market conditions will likely impact the fund's capacity to pay you. The risk of this product is significantly different if it is cashed-in

before the recommended holding period. This product has a materially relevant liquidity risk which may impact your ability to cash-in.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The Fund borrows money to provide leverage exposure to property which will increase the risks in the fund. In stressed market conditions the gearing can accentuate losses significantly.

Risk Indicator:

! This risk indicator assumes that you keep the product for 7 years. There is no capital guarantee with this investment and the returns you get back are not guaranteed. They may be very volatile over the short to medium term. For the first 2 years, from the purchase of units, investor's capital will not be accessible by the unitholder. The Fund will also have the ability to restrict investor access to their capital where redemption requests exceed 10% of the Fund NAV. You will have to pay an exit cost of 1% when you cash in your units. In stressed markets, the Fund redemptions are likely to be severely restricted.

PERFORMANCE SCENARIOS:

INVESTMENT €10,000 SCENARIOS		1 YEAR	4 YEARS	RECOMMENDED HOLDING PERIOD
Stress Scenario	What you might get back after costs	€6,168	€5,147	€4,248
	Average return each year	-38.3%	-15.3%	-11.5%
Unfavourable Scenario	What you might get back after costs	€7,950	€8,331	€9,318
	Average return each year	-20.5%	-4.5%	-1.0%
Moderate Scenario)	What you might get back after costs	€9,067	€11,028	€13,414
	Average return each year	-9.3%	2.5%	4.3%
Favourable Scenario	What you might get back after costs	€10,779	€15,380	€20,727
	Average return each year	7.8%	11.4%	11.0%

This table shows the money you could get back over the next 7 years, under different scenarios, assuming that you invest €10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market, and specific assets, performs and how long you keep this investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where the fund is not able to pay you.

This product may be cashed in any time (after two years) but depending on market conditions there may be restrictions (if for example redemption requests exceed 10% of the NAV of the Fund). This means it is difficult to estimate how much you would get back when you cash in. You will have to pay a 1% exit fee when you cash in.

The figures shown include all costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The return scenarios shown in this document do not allow for taxation which some investors may be liable for.

WHAT HAPPENS IF BCP ASSET MANAGEMENT DAC T/A BCP IS UNABLE TO PAY OUT?

Your investment is not held on BCP's balance sheet. The Fund follows best practice and legislation by using external and independent Custodians and Administrators. Legislation requires that an Alternative Investment Fund

Manager (AIFM) be appointed. Your investment is not guaranteed by any compensation scheme covering counterparty risk.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest €10,000.

The figures are estimates and may change in the future.

Cost over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

COSTS OVER TIME: INVESTMENT €10,000	IF YOU CASH IN AFTER 1 YEAR	IF YOU CASH IN AFTER 4 YEARS	IF YOU CASH IN AFTER RECOMMENDED HOLDING PERIOD
Total Costs	€2,299	€1,135	€997
Impact on return (RIY) per year	22.99%	11.35%	9.97%

COMPOSITION OF COSTS:
THIS TABLE SHOWS THE IMPACT ON RETURN PER YEAR:

One-off Costs	Entry Costs	1.87%	The impact of the costs you pay when entering the investment.
	Exit Costs	0.49%	The impact of the costs of exiting your investment when it matures.
On-going Costs	Portfolio Transaction Costs	1.17%	The impact of the costs of us buying and selling underlying investments for the product
	Insurance Costs	0.00%	The impact of the amount you are paying to buy insurance protection.
	Other On-going Costs	5.82%	The impact of the costs that we take each year for managing your investments including the costs of distribution, administration and custody of the fund and the costs associated with managing leveraged property assets including debt interest costs.
Incidental Costs	Performance Fees	0.62%	The impact of the performance fee. We take these from your investment if the product outperforms its benchmark.
	Carried Interests	0.00%	The impact of carried interests.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

The recommended holding period is 7 years. It was chosen based on the objectives of the fund and nature of the underlying investments. Property is a long-term investment and consequently may not be suitable as a short or medium term investment.

For the first 2 years, from the purchase of units, investor's capital will not be accessible by the unitholder. This lock-in is designed to enable the Fund to have

clarity and certainty on the amount of capital available to purchase properties for the benefit of the Fund and its unit holders. The Fund will also have the ability to restrict investors access to their capital where redemption requests exceed 10% of the NAV of the Fund.

There is an exit fee of 1% payable to BCP and 2% duties & charges (estimated property disposal costs) is applied when you cash in the investment.

HOW CAN I COMPLAIN?

Any complaint about the sale of this product should be made to your financial adviser or the intermediary through whom you invested or BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4 if relevant. Any complaint referred to BCP relating to your investment will be investigated thoroughly and in accordance with BCP's Complaints Policy. Details of the

Complaints Policy are available on request. Email: invest@bcp.ie. Website: www.bcp.ie. If you are dissatisfied with the outcome of BCP's efforts to resolve your complaint, it is possible that you may be able to refer your complaint to the Financial Services and Pensions Ombudsman at 3rd Floor, Lincoln House, Lincoln Place, Dublin 2.

OTHER RELEVANT INFORMATION
