If you seek to realise your investment before 7th May 2031 you may lose some, or all, of the money you invest. The amount you receive may be less than the initial investment. Liquidity is only available in normal market and funding conditions. The value of your investment may go down as well as up. You may get back less than you invest. Current Irish taxation legislation does not allow for a clear categorisation of the product as being subject to Capital Gains Tax. There is a risk an alternative taxation basis may apply.

**Counterparty/Credit Risk:** Your capital is exposed to the credit risk of HSBC Continental Europe as the issuer of the Note. If HSBC Continental Europe defaults on its senior debt obligations, you may suffer partial or full capital loss and potential return.
