ABOUT THE INDEX

The BNP Paribas World Climate Care RC8 AR Index (the 'Index') offers variable exposure to:

1. The BNP Paribas Equity World Climate Care NTR Index (the 'NTR Index') which provides exposure to the performance of a minimum of 100 companies worldwide with a positive financial outlook and high Environmental, Social and Governance (ESG) standards, selected on the basis of their carbon footprint and energy transition strategy

AND

2. A portfolio of bonds composed of rolling future indices on two different maturities: the BNP Paribas EUR 10Y Futures Index, the long term bond Index or BNP Paribas EUR 2Y Futures Index, the short term bond Index.

The equity index selects companies with an advanced energy transition strategy and the best financial outlook, while minimising its carbon footprint and excluding companies involved in controversial activities. The equity index is also focused on companies exhibiting lower volatility and ensures there is constant regional and sectoral diversification at all times. The equity index is rebalanced quarterly and each company is given a weighting of between 0% and 1%. The volatility control mechanism reweights the allocation between the equity index and the portfolio of bonds each trading day.

VIGEO EIRIS

Vigeo Eiris is a global provider of environmental, social and governance (ESG) research to investors and public and private companies. Vigeo Eiris have

partnered with BNP for the purposes of this Index to assess the ESG credentials for every company prior to its inclusion in the final Index.

VOLATILITY CONTROL MECHANISM

The Volatility Control Mechanism is applied with the objective of maintaining the realised volatility of the daily performance of the Index at 8%.

- If the volatility level of World Climate Care NTR Index is higher than 8%, the Index will allocate into bonds by creating a portfolio composed of the World Climate Care NTR Index and the bond portfolio.
- If the volatility of the portfolio composed of the World Climate Care NTR Index and Bond Portfolio is still higher than 8%, the Index will deleverage into cash.

The volatility control mechanism allows the Index to benefit from the decorrelation between Equities and Bonds. The Index aims to reduce the impact of severe market drawdowns during changing market periods and stabilise returns.

THE EQUITY WORLD CLIMATE CARE NTR INDEX: A 3-STEP SELECTION PROCESS

1

FILTERS ON COMPANIES

ESG compliance and Energy transition strategy filters applied to the Vigeo Eiris World Initial Universe (approx. 2,700 companies)

- **Exclusion of companies** with a Vigeo Eiris ESG score in the lowest 25% in their sector or below 30/100, or involved in armament, nuclear, tobacco, pornography or in critical controversies.
- **Exclusion of companies** with a BNP Paribas Asset Management ESG Score of 9 or 10 (10 being the worst score).
- Among intense emitters only those with the best **Energy Transition score** in their sector, as assessed by Vigeo Eiris, can be selected by the Strategy.

2

CONSTRAINTS ON PORTFOLIOS

- **Positive financial outlook:** Selection of the top 50% companies based on profitability, prospects and valuation data (return on equity, earnings, free cash flow, etc.).
- **Liquidity:** the average daily volume observed over 1 month and 6 months at or above 10M EUR for each stock in the portfolio.
- **Weighting:** The weighting of each company must be between 0% and 1%, the possible portfolios are therefore well diversified and include at least 100 equities.
- **Sectorial diversification:** the weight of each sector (according to industry Classification Benchmark level 1) must not exceed a 30% difference with the sector's weight in the benchmark.

3

FINAL SELECTION

The **final selection** must be the portfolio that:

5% per annum

Has an expected tracking error vs. the *Benchmark Portfolio* not exceeding 5% per annum.

-50%

Has carbon footprint reduced by at least 50% compared to the *Benchmark Portfolio*.

Max

Maximises its Vigeo Eiris Energy Transition score under the above constraints.

BOND PORTFOLIO

A portfolio of Bonds composed of rolling future indices on two different maturities: the BNP Paribas EUR 10Y Futures Index (BNPIFE10), the long term bond index, or BNP Paribas 2Y Futures Index (BNPIFEU2), the short term bond index.

BNPIFE10 Index (Long Term Bond index) – This strategy aims to provide exposure to the performance of 10 Year German Government Bonds.

BNPIFEU2 Index (Short Term Bond index) – This strategy aims to provide exposure to the performance of 2 Year German Government Bonds.

The Bond Portfolio will be fully allocated to the Long Term Bond index if the monthly trend of the Long Term Bond Index is above its trend over a year, otherwise it will be fully allocated to the Short Term Bond.

RISK MANAGEMENT VOLATILITY CONTROL MECHANISM

The Index contains a volatility/risk control feature that is designed to keep the overall Index volatility close to 8%. The aim of the volatility control mechanism is to provide a more stable level of return to investors. It acts as a limit to how much risk can be taken by the Index but can also act to limit the amount of performance that can therefore be generated.

The volatility control mechanism dynamically adjusts exposure to the NTR Index in order to keep an exposure to the NTR Index proportional to the target volatility of 8%. If the volatility of the NTR Index is higher than 8%, the Index will allocate into bonds by creating a portfolio composed of the NTR Index

and the Bond Portfolio. If the volatility of the portfolio composed of the NTR Index and Bond Portfolio is still higher than 8%, the Index will deleverage into cash.

The aim of the volatility control is to protect investors from volatile downward markets when Index performance is falling. However in periods of rapidly increasing markets and high volatility it can potentially result in under performance as exposure to the Index performance is reduced. The formula to determine the level of exposure to the Index is to divide the target volatility of 8% by the actual level of volatility, up to a maximum of 100% exposure. For example:

LEVEL OF VOLATILITY	FORMULA	INDEX EXPOSURE
6%	$8\% \text{ Target Volatility} / 6\% \text{ Actual Volatility}$	100% Maximum
8%	$8\% \text{ Target Volatility} / 8\% \text{ Actual Volatility}$	100%
16%	$8\% \text{ Target Volatility} / 16\% \text{ Actual Volatility}$	50%

DIVIDENDS AND THE ADJUSTMENT FACTOR

The Index performance is calculated by reinvesting the dividends paid by the companies selected in the Index and then reducing the total performance by a 2.5% annual adjustment factor. This adjustment factor acts like a synthetic fixed dividend which is removed prior to the calculation of the final Index performance. The fixed dividend of 2.5% may be higher than the actual dividends paid by the companies selected in the

index and can act as a drag on the performance of the index in this situation. The Index was €187.1396 as at 25th March 2022.

ACTUAL AND SIMULATED PAST PERFORMANCE

The underlying Index was officially launched on 2nd August 2021 so the below analysis is a combination of a short period of live past performance and a longer period of simulated past performance generated by replicating the exact rules of the Index back to 1st January 2008.

The BNP Paribas World Climate Care RC 8 AR Index is composed of a Global Equity Index and Euro-Bund Futures. In order to provide an informative comparison and performance analysis, we have recreated a "Proxy Basket" using the MSCI World Index and BNP Paribas EUR 10Y Futures Index with a weighting of 75% MSCI and 25% BNP Futures, which is broadly similar to the long term average composition of the BNP Index. As the BNP Index utilises an 8% volatility control overlay and also uses a very different stock selection methodology, differences in performance should be expected.

Performance over the period from 1st January 2008 to 25th March 2022 has shown strong overall growth across

multiple economic cycles. The volatility control has protected the Index in downturns but means the strong growth periods conversely are not picked up as well. The best example of this is from the start of 2020 to end March 2021 where the very strong rebound in equities from the bottom of the COVID crisis has not been experienced by the BNP Climate Care Index, however, this is an abnormal period. In more normalized conditions, which we are basing our view of the Index on, the performance should be more in line with the historical track record pre-COVID.

Actual and simulated past performance is not a reliable guide to future performance. The performance of the Index in the future cannot be predicted in advance. Although the simulated past performance shows no capital loss on the back tested basis, there is no suggestion that a capital loss may not arise in the future. If you invest in this product at maturity you could lose up to 5% (Growth Version) or 15% (Growth Plus Version) of the money you invest.

	SINCE 2008	10YRS	5YRS	3YRS	1YR	YTD
BNP Paribas World Climate Care RC 8 AR Index	101.61%	77.08%	11.92%	8.77%	3.67%	-3.35%

Source: Bloomberg and BCP Asset Management as of 25th March 2022. Performance is quoted cumulatively, net of fees and gross of tax. The BNP Climate Care RC8 AR Index was launched on the 2nd August 2021 so performance prior to this date is simulated. Proxy Basket is composed of the MSCI World EUR Index (MSERWI Index) and the BNP Paribas EUR 10Y Futures Index (BNPIFE10), using a constant weighting of 75% MSCI and 25% BNP Futures.

Warning: Actual and simulated past performance is not a reliable guide to future performance.

SIMULATED PAST PERFORMANCE

In order to demonstrate how the product would have performed in the past a series of tests to determine the simulated past performance of the BNP Paribas World Climate Care RC8 AR Index (the 'Index') applying the exact parameters of the strategy were carried out. The back testing data starts with a hypothetical product which was assumed to commence on 2nd January 2008 and runs continuously to include a hypothetical product which was assumed to commence on 28th March 2016. The back testing analysis assumes that a hypothetical product was launched on each business day (excluding non-pricing days such as bank holidays) between 2nd January 2008 and 28th March 2016. The back testing applies the simulated past performance of the Index during this period to the exact parameters of each version of this product to determine the outcome of these hypothetical products. The BNP Paribas World Climate Care RC8 AR Index was launched on 2nd August 2021 so any Index performance before this date is simulated.

The Index employs a Vigeo Eiris ESG score as part of the stock selection. The ESG data does not go back further than 2nd January 2008 and, therefore, this is the start date for the simulated back testing. The product has an investment term of 6 years and as the back testing data was generated on 29th March 2022, 28th March 2016 is the end date

for the simulated back testing as a hypothetical product must run for the full investment term to be included.

The back testing data is not considered to be statistically independent. The back testing is based on simulated historical data points for the Index from 2nd January 2008 (which is the earliest point for which data was available for the Index) to 28th March 2016. As equities have generally performed well during this period, the expectation would be for the back testing for this type of product to perform well also.

If additional back tested data were available it is likely that it would show that investors wouldn't receive a positive return all of the time and so would either lose capital or receive capital-only (i.e. no return) the rest of the time.

Simulated past performance is not a reliable guide to future performance. The performance of the Index in the future cannot be predicted in advance.

From 2nd January 2008 to 28th March 2016 there are 2,149 hypothetical products to analyse. The hypothetical returns shown below illustrate the historic Index performance multiplied by the 250% (Growth Plus Version) or 110% (Growth Version) participation rate in the Bond and added to the initial amount invested.

ILLUSTRATION OF POTENTIAL RETURN SCENARIOS FOR INVESTORS

The below table illustrates a number of potential investment scenarios to assist in explaining how this Bond operates. Capital security is fixed at 85% and 95% so regardless of the Index performance the minimum investment return will be -15% and -5% resulting in 85% and 95% of capital being returned. Any negative Index performance from 0% to -15% and 0% to -5% will be

experienced by the investor on a one for-one basis meaning if the Index is down -5% over the term then investors capital will be reduced by 5% at maturity. In terms of positive Index performance this will be multiplied by the participation rate of 250% or 110% up to a maximum Bond performance of 62.5% and 27.5% respectively.

Warning: The figures above are provided only to demonstrate how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the actual Performance of the Index which cannot be predicted in advance. Warning: The value of your investment may go down as well as up, you may get back less than you invest.

COUNTERPARTY SELECTION

BNP Paribas is the guarantor of the Issuer of the Certificate. The Issuer is BNP Paribas Issuance B.V., which is a 100% owned subsidiary of BNP Paribas, and investors will have capital exposure to the senior credit risk of BNP Paribas Issuance B.V. and BNP Paribas. In the event of a senior debt default by BNP Paribas Issuance B.V. and BNP Paribas investors' capital is at risk. BNP Paribas is ultimately responsible for the payment of any return of capital and any investment

return due from the Certificate. As a result it is imperative that the guarantor has a strong and sound financial profile and high credit strength. Investors in the BCP Enhanced Equity Bond 7 should familiarise themselves with the guarantor risk they are exposed to and the information below provides some of the key facts and figures behind BNP Paribas which led BCP to select them as the preferred guarantor for this product.

ABOUT THE GUARANTOR

- BNP Paribas is one of the largest financial services groups in the world with more than 189,765 employees in 68 different countries. (Source: BNP Paribas as of December 2021).
- BNP Paribas market capitalisation as of March 2022 was €65.3 billion (Source: Bloomberg).
- BNP Paribas is a French credit institution (bank) authorised and supervised by the European Central Bank ('ECB') and the Autorité de Contrôle Prudentiel et de Résolution (ACPR) (the French Prudential Control and Resolution Authority) and regulated by the Autorité des marchés financiers (the French financial markets regulator) (AMF).
- BNP Paribas current credit ratings are in the table below:

CREDIT RATING	FITCH	MOODY'S	S&P
BNP Paribas	AA -	Aa3	A+
Outlook	Stable	Stable	Stable

Source: Bloomberg as at March 2022

- BNP Paribas Issuance B.V. is a 100% owned subsidiary of BNP Paribas and will act as Issuer of the Certificate.
- The return of your capital secure amount and any growth due is dependent on BNP Paribas Issuance B.V. paying back the amounts due under its obligations on the Certificate. Ultimately, the investor bears a credit risk on BNP Paribas as the guarantor of BNP Paribas Issuance B.V. This is called guarantor Risk.
- BNP Paribas Issuance B.V. is the flagship issuer of BNP Paribas with over €94 billion EUR in outstanding issuances. Source: BNP Paribas, as of 30th June 2021.

Warning: If BNP Paribas were to default, you will lose some or all of your investment and potential return.

CREDIT RATINGS

One of the factors you may wish to take into account when reviewing a counterparty is its long term credit ratings. These are the opinions of a range of credit rating agencies regarding the long term security of the counterparty.

A high rating of a counterparty from one or more of the credit rating agencies is not a guarantee that the Issuer will meet its obligation to pay the amount due from the Bond. Fitch and Moody's are independent ratings agencies that research and grade the ability of financial and other institutions to make the payments due from the Securities issued and/or guaranteed by them.

By way of example, Moody's highest possible rating is Aaa, followed by Aa1, Aa2, Aa3, A1, A2, A3, Baa1 and Baa2. These 9 ratings along with their Baa3 rating are generally regarded as investment grade (i.e. of higher quality). A rating outlook assesses the potential direction of a long term credit rating view over the intermediate term. The term considered varies between credit rating agencies; Fitch looks at a 12 to 24 month period, while Moody's says its outlooks are 'over the medium

term'. In determining a rating outlook, consideration is given to any changes in the economic and fundamental business conditions. An outlook is not necessarily a precursor of a rating change or future credit watch action.

- Positive means that a rating may be raised.
- Negative means that a rating may be lowered.
- Stable means that a rating is not likely to change.
- Under review, either positive or negative means a rating may be raised or lowered in the short term.

All references to the credit rating are correct as at March 2022. Credit ratings are subject to change during the offer period and during the term of the Bond. Ongoing information about the ratings of the Counterparty is available from BCP. Please refer to your financial adviser if you have any queries regarding credit ratings.

Warning: If BNP Paribas were to default, you will lose some or all of your investment and potential return.

TARGET MARKET ASSESSMENT / IS THIS BOND RIGHT FOR YOU?

When designing an investment product BCP spend a considerable amount of time ensuring the product features closely match the investment requirements of the target market we are distributing to. Below we have provided a simple checklist of product features that we encourage all investors

to review, alongside their financial advisor, in order to ensure the product accurately meets an individual's demands and that the product is appropriate for their specific investment needs. The below checklist should be reviewed in conjunction with the entirety of the product brochure.

INSIDE THE TARGET MARKET

- You have read the brochure and you understand how this investment works
- You understand that you can withdraw your investment anytime during the term in normal market and funding conditions, but if you withdraw early, the encashment amount may be more or less than the capital secure amount
- You intend to invest for the full 6 year investment term
- You want to benefit from the performance of the Index
- You understand that positive performance of the Bond may be less than the actual performance of the underlying Index over the term of the Bond
- You understand that the actual dividends paid by the companies may be less than the adjustment factor applied to the Index and the relative performance of the Index will be impacted negatively in this circumstance
- You have some knowledge of, and experience in, investments which allows you to understand the risks associated with this investment
- Your investment objective for this Bond is capital growth and you do not require income
- You understand that you will lose up to 5% (Growth Version) or 15% (Growth Plus Version) of the capital invested if the investment return at maturity is negative
- You understand that if BNP Paribas were to default you will lose some or all of your investment and potential return
- You understand and accept the risks associated with this investment
- You understand that the total maximum Return on the Bond is 62.5% for the Growth Plus Version and 27.5% for the Growth Version

OUTSIDE THE TARGET MARKET

- You do not understand how this investment works
- You are not willing to risk any of your capital
- You have not read the warnings and risk disclosures in this brochure
- You do not have sufficient knowledge of or experience in investments to understand the risks associated with this investment
- You require a regular income on your investment
- You are not willing to accept the risks associated with this investment
- You are not prepared to accept BNP Paribas Issuance B.V. and BNP Paribas credit risk
- You require a guaranteed return on your investment
- You require a return on your investment above the maximum return provided by the Bond

HOW DOES THE BCP ENHANCED EQUITY BOND 7 WORK?

Your entire investment is allocated to the BCP Enhanced Equity Bond 7. At the end of the 6 year Term, the percentage performance (gain or loss) of the Index is calculated. Positive Index performance will be multiplied by 250% (Growth Plus Version) Or 110% (Growth Version) to determine the return to be added to the original investment amount. The return for the Growth Plus Version is capped at 62.5%, equivalent to 10.4% gross per annum (CAR 8.4%) over the investment term. The return for the Growth Version is capped at 27.5%,

equivalent to 4.6% per annum (CAR 4.1%) over the investment term. Where the Index performance is negative at the end of the Term, there will be a 1% loss of capital for every 1% fall in the Index subject to a maximum loss of 15% for the Growth Plus Version and 5% for the Growth Version. The Bond offers 85% and 95% capital security at maturity. You may encash the BCP Enhanced Equity Bond 7 before maturity, see section headed "Do I have access to my Investment?".

BOND STRUCTURE

Investors in the BCP Enhanced Equity Bond 7 are investing in a 6 year capital protected certificate issued by BNP Paribas Issuance BV, a 100% owned subsidiary of BNP Paribas which is the guarantor of Issuance BV. BCP Asset Management is the distributor of the Bond and European Depositary Bank SA, Dublin Branch, will act as the Custodian of the Security on your behalf. A custody account in the name of BCP Asset

Management Client Asset Account will hold the Securities on behalf of investors at EDB. European Depositary Bank SA, Dublin Branch is supervised by the Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg and is regulated by the Central Bank of Ireland for conduct of business rules. BNP Paribas has not sponsored or endorsed the Bond in any way.

SUITABILITY

The Bond is not suitable for investors who require regular income. The Bond is suitable only as a capital growth investment. The return on the Bond at maturity will depend on the Performance of the Index and will only be determined at the end of the term. Your money is not invested in the Index, therefore, you do not benefit from any dividends paid by the Index, during the term of the Bond. In order to protect the

Performance of the Index from volatility towards the end of the term, the Final Price will reflect the average price of the Index on a monthly basis over the final 6 months of the 6 year Term. The effect of averaging is to protect returns in a falling market but conversely it may restrict growth in a rising market. The return on your investment in this product may be affected by changes in currency exchange rates.

CAPITAL SECURE AMOUNT

Capital security is provided at maturity by BNP Paribas Issuance B.V. and guaranteed by BNP Paribas. In the event BNP Paribas Issuance B.V. and BNP Paribas fail to meet its liabilities, you

could lose some or all of your money. Your investment is not covered by any compensation schemes covering counterparty default.

Warning: If you invest in this product, at maturity you could lose up to 5% (Growth Version) or 15% (Growth Plus Version) of the money you invest. Warning: If you cash in your investment before the final maturity date you may lose some or all of the money you invest. Warning: The value of your investment can go down as well as up.

CHARGES

100% of your investment is allocated to the Bond and any returns generated are based on 100% of the invested capital, not your invested capital minus any

applicable fees. There are no annual management fees.

GROWTH PLUS VERSION

Total fees for the Growth Plus Version of the Bond are 4.0% (or €800 for an investment of €20,000). From the total fee received, European Depositary Bank SA, Dublin Branch will receive 0.18% (or €36 for an investment of €20,000) for custody and execution services. Where another custodian is used (for example for Aviva SDIO investments at 0.4%), this fee is payable to that custodian. If you have invested via an authorised investment intermediary they will be paid a fee of 2.0% (or €400 for an investment of €20,000), equivalent to 0.33% per annum. This fee is payable to BCP if you do not deal with us through an intermediary. BCP Asset Management will receive a fee of 1.82% (or €364 for an investment of €20,000) for the distribution, marketing and administration of the Bond, equivalent to 0.30% per annum. The total fee and the fee payable to BCP quoted above may vary depending on the fee payable to BCP by BNP Paribas on any subsequent increases or decreases to the initial amount hedged for this product. The fee to BCP will depend

primarily on the option price, the market interest rate and the Bank's funding rate at the time. The actual % payable to BCP will be notified to you after the start date of this product. In relation to any withdrawal outside of the early and final maturity dates a 0.5% (or €100 for an unwind of €20,000) administration charge (subject to €100 minimum charge) payable to BCP will apply to the full realised market value (which may be more or less than the amount invested). BNP Paribas may, in normal market and funding conditions, apply a charge which is equivalent to a deduction from the realised market value of no greater than 0.5%. The full realised market value may be more or less than the capital secure amount. We also may receive from or provide to our counterparties and/or intermediaries minor non-monetary benefits; which may arise in the normal course of business (e.g. attendance at training, conferences or off site meetings that may include a minor sustenance).

GROWTH VERSION

Total fees for the Growth Version of the Bond are 3.5% (or €700 for an investment of €20,000). From the total fee received, European Depositary Bank SA, Dublin Branch will receive 0.18% (or €36 for an investment of €20,000) for custody and execution services. Where another custodian is used (for example for Aviva SDIO investments at 0.4%), this fee is payable to that custodian. If you have invested via an authorised investment intermediary they will be paid a fee of 1.75% (or €350 for an investment of €20,000), equivalent to 0.29% per annum. This fee is payable to BCP if you do not deal with us through an intermediary. BCP Asset Management will receive a fee of 1.57% (or €314 for an investment of €20,000) for the distribution, marketing and administration of the Bond, equivalent to 0.26% per annum. The total fee and the fee payable to BCP quoted above may vary depending on the fee payable to BCP by BNP Paribas on any subsequent increases or decreases to the initial amount hedged for this

product. The fee to BCP will depend primarily on the option price, the market interest rate and the Bank's funding rate at the time. The actual % payable to BCP will be notified to you after the start date of this product. In relation to any withdrawal outside of the early and final maturity dates a 0.5% (or €100 for an unwind of €20,000) administration charge (subject to €100 minimum charge) payable to BCP will apply to the full realised market value (which may be more or less than the amount invested). BNP Paribas may, in normal market and funding conditions, apply a charge which is equivalent to a deduction from the realised market value of no greater than 0.5%. The full realised market value may be more or less than the capital secure amount. We also may receive from or provide to our counterparties and/or intermediaries minor non-monetary benefits; which may arise in the normal course of business (e.g. attendance at training, conferences or off site meetings that may include a minor sustenance).

WHERE DOES MY INVESTMENT GO?

You are purchasing a BNP Paribas Issuance B.V. Certificate. BCP has appointed European Depositary Bank SA, Dublin Branch (EDB) who are authorised to act as the custodian of the Securities. Investor funds will be transferred from BCP to EDB who in turn will transfer the funds to BNP Paribas

before the start date. At the Final Maturity Date or earlier if encashed, funds will be transferred from BNP Paribas back to EDB who in turn will transfer funds back to BCP. BCP will advise you of the amount received and request your written instructions.

DO I HAVE ACCESS TO MY INVESTMENT?

The Certificates will be listed on the Luxembourg Stock Exchange and are tradable investments. BNP Paribas endeavours to make a secondary market in the Certificates, subject to it being satisfied that normal market and funding conditions prevail. There is no guarantee liquidity will be available at the time you wish to encash. Any prices indicated will be dependent upon a number of factors including the remaining time to the Maturity Date, the BNP Paribas Issuance B.V. and BNP Paribas' credit risk, the performance and volatility of the underlying Index, interest rates, exchange rates, credit spreads and any incidental costs. BNP Paribas may be the only market maker

in the Certificates which may affect liquidity. Therefore, investors will, in normal market and funding conditions be able to sell the Certificates at any time during the term. The price at which the Certificates can be sold will be the open market value determined by BNP Paribas which will take fees and charges into account and can be lower than the initial amount invested or the capital protected amount. Deductions for fees and charges are not made uniformly throughout the life of the Bond, but are loaded onto the early period. If you withdraw from the Bond in the early period this will impact on the value you will receive.

TWO BOND VERSIONS

Investors have two bond versions to choose from within this structure. These have been designed to cater for varying

risk and return requirements of individual investors.

BCP ENHANCED EQUITY BOND 7 Growth Plus Version

At the end of the 6 year Term, if the Performance of the Index is positive the Bond will pay 100% of the original investment plus 250% of the Performance achieved by the Index over the investment term. The return is capped at 62.5%, equivalent to 10.4%

gross per annum (CAR 8.4%) over the 6 year investment Term. If the Performance of the Index is negative over the term of the Bond, there will be a 1% loss of capital for every 1% fall in the Index, subject to a maximum loss of 15%.

BCP ENHANCED EQUITY BOND 7 Growth Version

At the end of the 6 year Term, if the Performance of the Index is positive the Bond will pay 100% of the original investment plus 110% of the Performance achieved by the Index over the investment term. The return is capped at 27.5%, equivalent to 4.6%

gross per annum (CAR 4.1%) over the 6 year investment Term. If the Performance of the Index is negative over the term of the Bond, there will be a 1% loss of capital for every 1% fall in the Index, subject to a maximum loss of 5%.

WHAT HAPPENS IF I DIE?

In the event of the death of a sole investor prior to the expiry of the Term:

a) the Bond may be transferred into the names of the deceased investor's personal representatives or of any other person nominated by such personal representatives, or

b) the Bond may be redeemed, subject to normal probate regulations, at its realisable value as determined by BCP based on a calculation by the Bank, at the discretion of the Bank. The redeemable amount will be calculated primarily by reference to the market value of the assets, the remaining term to maturity, and the prevailing interest rates at the time. The amount redeemed may be more or less than the capital invested. Where the Bond is held in joint names it will, upon the death of one of the investors and upon production of such evidence of death as BCP or the Bank may require, be transferred into

the name(s) of the surviving investor(s). Where an investment is made on behalf of a self-directed or self-administered pension plan, in the event of death of a member prior to the expiry of the Term, the Bond may be redeemed at its realisable value as determined by BCP based on a calculation by the Bank which may be more or less than the capital invested. The proceeds from such redemption will be paid to the trustees of the plan, or the investing life company as appropriate. A 0.5% (or €100 for an investment of €20,000) administration charge (subject to €100 minimum) payable to BCP will apply to the full realised market value (which may be more or less than the amount invested) of any early exit from this investment. BNP Paribas may apply a charge which is equivalent to a deduction from the realised market value of no greater than 0.5%.

WHAT ABOUT TAX?

The Bond is a Certificate and all investment returns will be paid gross of tax. The current Irish legislation does not allow for a clear categorisation of how these products should be treated for tax purposes. It is our understanding that the Growth Plus Version should be subject to Capital Gains Tax where applicable. With respect to the Growth Version, based on independent taxation advice received, it is our understanding that this product should be subject to

Income Tax where applicable. Revenue law and practice can change at any time; the tax treatment will depend on the individual circumstances of each client and may be subject to change in the future. BCP are not tax advisers and are not offering tax advice on this product. Investors should satisfy themselves independently of the taxation treatment of the Bond, in relation to reporting requirements and the implications of non-disclosure.

WHAT IS A CERTIFICATE?

A Certificate is an instrument issued by a bank that confers a debt obligation on the bank to the benefit of the investor. A Certificate can therefore be classified as a bank debt security or a bank bond. The BCP Enhanced Equity Bond 7 is in the form of a Certificate issued by BNP Paribas Issuance B.V., a 100% owned subsidiary of BNP Paribas, and is

guaranteed by BNP Paribas. This is a senior unsecured debt instrument that ranks equally with all other senior unsecured debt issued by BNP Paribas Issuance B.V. The Certificates will be listed on the Luxembourg Stock Exchange and can therefore be generally classified as a listed bond.

ANALYSING THE RISK OF THE INVESTMENT

As per the Key Information Document (KID) that accompanies this Bond brochure, and can be found on the bcp.ie website, a standardised risk analysis (called a Summary Risk Indicator or SRI) has been developed by the European regulatory authorities to allow investors compare and contrast, amongst other features, the risk of an investment according to pre-defined criteria and

with a standardised calculation format. The SRI is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because BNP Paribas are unable to repay the capital protected amount plus any return.

RISK ANALYSIS

The BCP Enhanced Equity Bond 7 is classified as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are unlikely to impact BNP Paribas Issuance B.V. and BNP Paribas' capacity to pay you. You are entitled to receive back at least 85% (Growth Plus Version) or 95% (Growth

Version) of your capital at maturity. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you redeem your investment before the maturity date.

PLEASE NOTE, if BNP Paribas Issuance B.V. and BNP Paribas are unable to repay what is owed, you could lose your entire investment. The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you redeem your investment (in exceptional circumstances) at an early stage and you may get back less than you invested.

WHAT ARE THE RISKS INVOLVED IN THE BOND?

RISK OF CAPITAL LOSS

If you invest in this Bond at maturity you can lose up to 15% (Growth Plus Version) or 5% (Growth Version) of the money you invest.

COUNTERPARTY/ CREDIT RISK

BNP Paribas is the Guarantor of the Certificate and BNP Paribas Issuance B.V. is the Issuer. If the Issuer and Guarantor become insolvent or cannot make the payments on the Bond for any other reason, you will lose some or all of your investment. Your investment in the Certificate ('the instrument'/'the security') with BNP Paribas ('the institution') is subject to the Bank Recovery and Resolution Directive. Below we provide some information on the potential treatment of investments in resolution or insolvency.

- the instrument is unsecured and therefore subject to the resolution regime or normal insolvency if the institution fails;
- the impact of the institution's failure on investors depends crucially on the ranking of the liability in the insolvency creditor hierarchy (which may have changed because of the introduction of depositor preference), on the amount of losses incurred and on the resolution strategy applied;
- in the event of resolution:
 - the outstanding amount may be reduced to zero or the security may be converted into ordinary shares or other instruments of ownership for the purpose of stabilisation and loss absorption;
 - a transfer of assets to a bridge bank or in a sale of business may limit the capacity of the institution to meet repayment obligations, or may result in partial losses or no losses if the relevant liabilities are also transferred;
 - the maturity of instruments or the interest rate under these instruments can be altered and the payments may be suspended for a certain period;
- the liquidity of the secondary market in any unsecured debt instruments may be sensitive to events in financial markets;
- existing liquidity arrangements (for example repurchase agreements by the issuing institution) might not protect clients from having to sell these instruments at a substantial discount below their principal amount, in the event of financial distress of the issuing institution;
- liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings (as a consequence of the application of the 'no creditor worse off' principle). This assessment must be based on an independent valuation of the institution. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way there may be a delay in recovering value in the event of an insolvency), although resolution, in principle, preserve value compared with insolvency.

INFLATION RISK

Any inflation during the term of the Bond will reduce the real value of your investment over time.

CONCENTRATION RISK

Your investment in the Bond should only be considered as part of your overall investment portfolio. You should not put all, nor a large part, of the money you have available for investment into any one product, or with any one counterparty.

MARKET RISK

External factors could affect national economies, regions or an asset class and cause a fall in value of the equity markets and could influence the returns payable under the Bond.

LIQUIDITY RISK

BNP Paribas aims to provide a secondary market for the Bond during the investment term. However, certain exceptional market circumstances may have a negative impact on the liquidity of the Bond and result in the partial or total loss of your initial capital invested. Extreme adverse conditions may even render the Bond entirely illiquid, which may make it impossible to sell the Bond before the Final Maturity Date. It is envisaged that investors will hold the Bond for the full 6 year term and all investors should consider the term before investing.

SECONDARY MARKET RISKS	BNP intends, under normal market and funding conditions, to provide bid and offer prices for this Bond on a regular basis. Certain exceptional market circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that significantly impacts how much he gets back. This may entail a partial or total loss of the invested amount. The Certificates may redeem below par and the redemption amount may vary considerably due to market conditions and will likely be valued at a considerable discount to its par value. BNP may apply a charge which is equivalent to a deduction from the realised market value of no greater than 0.5%.
EARLY REDEMPTION RISK	If the Bond is sold before the Final Maturity Date then the value of the Bond may be less than the original investment amount and the investor may lose some or all of the invested amount. An administration charge will apply, please see page 17 for more details.
LACK OF COMPENSATION SCHEME PROTECTION	Your investment is not covered by any investor compensation schemes in the event of a default of BNP Paribas Issuance B.V. and BNP Paribas.
TAXATION RISK	Current Irish taxation legislation does not allow for a clear categorisation of the Growth Plus Version as being subject to Capital Gains Tax (CGT) and the Growth Version being subject to Income Tax; there is a risk an alternative taxation basis may apply.
FIXED DIVIDEND RISK	This fixed dividend may be higher than the actual dividends paid by the companies in the Index in the future and will act as a drag on the performance of the Index in this situation.
VOLATILITY RISK CONTROL MECHANISM	In the event of a sudden and significant market decline, itself followed by a sharp increase, the Volatility Risk Control adjustment mechanism may result in temporary underexposure and therefore a period of underperformance. When the market is stable or rising, followed by a sudden and sharp decline, the Volatility Risk Control adjustment mechanism can result in temporary overexposure leading to a period of underperformance.

Before making any investment in this product Investors should refer to the prospectus and final terms associated with it; these are available on request. It is recommended that investors read carefully the "risk factors" section of the Bond's prospectus. The prospectus is available on the BNP Paribas website.

INDEX DISCLAIMER: Neither the Issuer nor the Guarantor shall have any liability for any act or failure to act by an Index Sponsor in connection with the calculation, adjustment or maintenance of an Index. Except as disclosed prior to the Issue Date, neither the Issuer, the Guarantor nor their affiliates has any affiliation with or control over an Index or Index Sponsor or any control over the computation, composition or dissemination of an Index. Although the Calculation Agent will obtain information concerning an Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility is accepted by the Issuer, the Guarantor, their affiliates or the Calculation Agent as to the accuracy, completeness and timeliness of information concerning an Index.

Warning: If you invest in this product, at maturity you could lose up to 5% (Growth Version) or 15% (Growth Plus Version) of the money you invest. Warning: If you cash in your investment before the final maturity date you may lose some or all of the money you invest. Warning: The value of your investment can go down as well as up.

- 6.2 The minimum investment is €20,000. The minimum investment is reduced to €5,000 where investments are completed in full online using vespro.bcp.ie.
- 6.3 The Bond is available to individuals who are aged 18 or over investing on their own behalf, religious orders, charitable bodies, companies and pension funds. Individuals under 18 may be facilitated by way of a flexible trust.

7. CANCELLATION RIGHTS

- 7.1 You have the option to cancel your application to invest in the Bond by 31st May 2022. In order to cancel written notice must be received by BCP by 31st May 2022.
- 7.2 BCP reserves the right, at its sole discretion, not to proceed with this Bond at any time up to and including the Start Date. In such circumstances your Investment amount will be returned to you without interest.

8. WITHDRAWALS

- 8.1 Daily liquidity is available in normal market and funding conditions. The value of any withdrawal is dependent on a number of factors and is subject to market movements. Only full encashments are permitted, partial encashments will not be facilitated.
- 8.2 In the event of death of a sole investor prior to the expiry of the 6 year Term:

(a) the Bond may be transferred into the names of the deceased investor's personal representatives or of any other person nominated by such personal representatives, or

(b) the Bond may be redeemed, subject to normal probate regulations, at its realisable value as determined by BCP and the Bank, which may be more or less than the capital secure amount.

- 8.3 Where the Bond is held in joint names, it will, upon the death of one of the investors and upon production of such evidence of death as BCP or the Bank require, be transferred into the name(s) of the surviving investor(s).
- 8.4 Where an investment is made on behalf of a self directed or self administered pension plan, in the event of death of a member prior to the expiry of the 6 year Term, the Bond may be redeemed, subject to the terms of the rules of the underlying scheme or policy, at its realisable value as determined by BCP and the Bank which may be more or less than the capital invested. The proceeds from such redemption will be paid to the trustees of the plan, or the investing life company as appropriate.
- 8.5 A 0.5% administration charge (subject to €100 minimum) payable to BCP will apply to the full realised market value (which may be more or less than the amount invested) of any early exit from this investment. BNP Paribas may apply a charge which is equivalent to a deduction from the realised market value of no greater than 0.5%.

9. RETURN

- 9.1 Performance of the Index is calculated as (Final Price – Initial Price) / Initial Price where (1) the Initial Price of the Index is the closing level of the Index on 7th June 2022 or the next business day for the Index; (2) The Final Price for the Index is the simple average of the Index values taken at monthly intervals from and including 7th December 2027 to 7th June 2028. Where a price is not available on the 7th of a month due to it not being a business day for pricing purposes, the price used will be the next business day regardless of whether a price is available on the 7th.
- 9.2 If the Performance of the Index is positive at the end of the Term, the Gross Return of the Bond is calculated as (Performance of the Index x Participation) where Participation is 250% for the Growth Plus Version and 110% for the Growth Version. The Gross Return of the Bond for the Growth Plus Version is capped at 62.5% (CAR 8.4%) and 27.5% (CAR 4.1%) for the Growth Version. This will be added to your original capital invested to calculate the amount due to you at maturity.

If the Performance of the Index is negative at the end of the Term, there will be a 1% loss of capital for every 1% fall in the Index subject to a maximum loss of 15% for the Growth Plus Version and 5% for the Growth Version. This loss will be deducted from your original capital invested to calculate the amount due to you at maturity. The minimum you can receive at maturity is 85% (Growth Plus Version) or 95% (Growth Version) of your original capital invested. If the Performance of the Index is zero at the end of the Term, you will receive back your original capital invested.

- 9.3 No interest will be paid to you on your initial investment in relation to the period up to 14th June 2022.
- 9.4 The final return will be paid gross of tax.
- 9.5 Should an adjustment event occur during the 6 year Term which affects the valuation of the Index, BCP shall be entitled, after consultation with the Bank and at its absolute discretion, to adjust any relevant terms of the Bond to preserve the economic equivalent of your investment prior to the occurrence of such event.
- 9.6 Should any event occur during the 6 year Term which in BCP's absolute discretion constitutes a substantial change to the Index, force majeure or hedging disruption, BCP shall be entitled to substitute the Index with another underlying, to unwind the Bond at the then current market value or to suspend operations

of the Bond during any period in which such event continues and thereafter until the end of the 6 year Term. Neither BCP, the Bank, nor their agent(s) shall be liable for any loss howsoever suffered by the investor if there is any total or partial failure of performance resulting from any such event or any other causes beyond the control of BCP, the Bank or their agent(s).

10. MATURITY

At maturity, you will have the option to access your maturity proceeds, or you may have the option to reinvest the proceeds into other products which may be available at that time. Your financial adviser and BCP will contact you before maturity to ask your preference. At maturity, your proceeds will be transferred back to a BCP client asset account and will be held by BCP in accordance with the Irish Client Asset Regulations 2017. If you do not provide us with an instruction, matured funds will be held in this BCP client asset account until they are returned to you by cheque or electronic funds transfer, unless BCP has notified you otherwise in writing. Negative interest may be charged on any unclaimed maturity funds.

11. JOINT ACCOUNTS

Unless otherwise agreed in writing with BCP, the withdrawal of funds at maturity will require the consent of all account holders.

12. COMPLAINTS

Any complaint about the sale of this Bond should be made to your financial adviser or the intermediary through whom you invested or BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4, D04 XK68 if relevant. Any complaints referred to BCP relating to your Investment will be investigated thoroughly and in accordance with the BCP's Complaints Policy. Details of the Complaints Policy are available on request. If you are dissatisfied with the outcome of BCP's efforts to resolve your complaint, it is possible that you may be able to refer your complaint to the Financial Services and Pensions Ombudsman.

13. CONFIDENTIALITY

BCP observes a strict duty of confidentiality about your financial affairs. Save at your request or with your consent, BCP will not disclose any details relating to your investment to anyone else other than in the following circumstances:

- to comply with a Court Order.
- to comply with a direction or request from a statutory or regulatory body entitled to such details.
- in accordance with any applicable legislation.

14. DATA PROTECTION

BCP Asset Management DAC complies with the requirements of the General Data Protection Regulation 2018.

DATA SECURITY

BCP Asset Management DAC intend to strictly protect the security of your personal information and carefully protect your data from loss, misuse, unauthorised access or disclosure, alteration or destruction. We have taken appropriate steps to safeguard and secure information held by us.

15. ASSIGNMENTS

Investor(s) may not transfer (either by assignment or by novation) or create any security over any or all its rights, interests and obligations in the Bond without the prior written consent of BCP.

16. BOND OPERATION

Neither BCP, the Issuer, the Bank, the Custodian nor their agent(s) will be liable for any loss you may suffer if BCP, the Issuer, Bank, the Custodian or their agent(s) is prevented from providing any service as a result of industrial action, power failure or other cause beyond the reasonable control of BCP, the Issuer, the Bank or their agent(s). The Issuer acts as Issuer only and is not liable for the responsibilities of BCP to you in relation to the Bond, this brochure or for any other information provided to you by BCP. The Bank is not offering financial or tax advice to BCP or investors. It does not make any representation, express or implied, as to the investment terms or the performance of the Bond. Any such statements herein, as well as all other statements regarding the Bond, are the sole responsibility of BCP.

17. VARIATION

BCP reserves the right to amend, vary or supplement these Terms & Conditions, during the Term of the Bond. This may be for one of the following reasons:

- (a) due to a change in legal, regulatory or taxation requirements to which BCP is subject, or a change in the manner in which same are applied;
- (b) to comply with an order of a court or other analogous authority;
- (c) to make the Terms & Conditions fairer to you or to correct a mistake (provided that such a correction would not adversely affect your rights);
- (d) to enable your Bond to be managed more effectively, or to provide you with additional options within your Bond. Where possible you will be notified of any changes at least 30 days in advance of changes taking effect.

18. GOVERNING LAW AND JURISDICTION

These Terms and Conditions are governed by and shall be construed in accordance with the laws of Ireland. By signing the application form for the Bond, you agree that any dispute may be resolved by the courts of Ireland.

- 18.1 These Terms and Conditions and all non-contractual obligations arising out of or in connection with them shall be governed by Irish law and will become effective on acceptance by BCP of your signed Application Form.
- 18.2 The issue of the Securities is governed by English law and your rights relating to that instrument may differ were it subject to Irish law.

19. GENERAL

Should any conflict arise between the terms and conditions in this brochure and the terms and conditions in the BNP Paribas Confirmation with BCP, the terms and conditions in the BNP Paribas Confirmation shall take precedence.

20. TELEPHONE RECORDING

For the prevention of fraud, money laundering and the financing of terrorism and for security, training, compliance and monitoring purposes all telephone calls to and from BCP may be recorded.

21. DISCLAIMER

Reference within this document to particular assets or indices are included only to indicate the basis upon which the investment return is calculated, not to indicate any association between BCP or the Issuer and the relevant fund or the relevant index provider, nor does such reference indicate any endorsement of the investment by the relevant provider. Neither BNP Paribas Issuance B.V. nor BNP Paribas has prepared this document and therefore accepts no responsibility for its contents, nor any liability for any losses in connection with the information contained herein. BCP has prepared this document and accepts responsibility for its contents.
