BCP GBP Enhanced Equity Bond

*A Sterling denominated capital secure bond
that combines access to enhanced global equity
performance with 90% capital protection at
maturity and all returns added to capital invested*

OVERVIEW

- Access Global Equity performance with high levels of performance participation and capital security
- 200% Participation in the Index Performance which is added to the capital invested amount with the return capped at 60%, equivalent to 12% gross per annum (CAR 9.9%) over the investment term
- Capital Security of 90% provided at maturity by BNP Paribas Issuance B.V. and guaranteed by BNP Paribas. (Rated AA-/Aa3/A+)
- Underlying global equity Index is the Solactive Sustainable Development Goals World Index which tracks the performance of a selection of 50 ESG companies that are contributing to a more sustainable global economy
- Investment term 5 years (daily liquidity available, administration charge will apply)
- Minimum Investment £20,000 (Increments of £1,000)
- Closing Date 21st October 2021

The BCP GBP Enhanced Equity Bond has been designed for cautious to balanced investors who wish to access the performance of a global equity Index focused on sustainable, low volatility companies, with the additional benefit of 90% capital security provided by BNP Paribas Issuance B.V. and guaranteed by BNP Paribas at maturity. The Bond will pay investors a return based on the performance of the Solactive Sustainable Development Goals World RC 8 EUR Index, over the 5 year investment term.

This is marketing material.

BCP GBP ENHANCED EQUITY BOND SUMMARY

| | |
|---|--|
| Name of Product | BCP GBP Enhanced Equity Bond ("the Bond") |
| Target Market | Individuals, Pensions, Charities, Corporates, ARF, AMRF, PRB, SSAP and PRSA investors, who have funds in Sterling and receive investment advice. Investors will be treated as retail clients as categorised within the meaning of MiFID. |
| Aim of the Bond | Provide investors with a hard protected capital secure investment tracking the performance of an innovative Global Equity Index focused on sustainable companies. To generate equity-based performance with high levels of participation and capital security. |
| Underlying Index | Solactive Sustainable Development Goals World RC 8 EUR Index |
| Participation and Capital Security | 200% participation in any positive performance of the Index with the return capped at 60%, equivalent to 12% gross per annum (CAR 9.9%) over the investment term. Capital security of 90% is provided at maturity |
| Minimum Investment Return | If the performance of the Index is negative, investors will suffer 1% loss of capital for every 1% fall in the Index at maturity, down to a Minimum Investment Return of -10% |
| Provider of Capital Security at Maturity | BNP Paribas Issuance B.V. and guaranteed by BNP Paribas |
| Issuer | BNP Paribas Issuance B.V. (100% owned subsidiary of BNP Paribas) |
| Custodian | European Depositary Bank SA, Dublin Branch |
| Investment Term | 5 years |
| Classification | A listed Certificate (Senior unsecured debt). A MiFID complex product |
| Listing | Luxembourg Stock Exchange |
| Liquidity | Daily liquidity in normal market conditions (administration charge will also apply) |
| Availability | Personal Investors, SSAP's, ARF's, AMRF's, PRB's, PRSA's, Corporates, Charities |
| Minimum Investment | £20,000 (Only increments of £1,000 are accepted). |
| Tax Treatment | All investment returns will be paid gross of tax, please refer to page 18 for more details. |

Warning: if you invest in this product, at maturity you could lose up to 10% of the money you invest. Warning: if you encash before maturity, capital security will not apply to the portion of your investment being encashed. The encashment amount may be more or less than the capital secure amount and you may lose some or all of the money you invest. Liquidity is only available in normal market conditions. Warning: the return on your investment in this product may be affected by changes in currency exchange rates. Warning: If BNP Paribas were to default, you will lose some or all of your investment and potential returns. Warning: current Irish taxation legislation does not allow for a clear tax categorisation of this product. There is a risk an alternative taxation basis may apply.

SSAP is Small Self-Administered Pension. ARF is Approved Retirement Fund. AMRF is Approved Minimum Retirement Fund. PRB is Personal Retirement Bond. PRSA is Personal Retirement Savings Account. CAR is Compound Annual Return.

ABOUT THE INDEX

The Solactive Sustainable Development Goals Index underlying this Bond is comprised of 50 companies located around the World that have been deemed to be positively contributing to a more sustainable global economy. The 50 companies making up the Index have been screened to ensure they incorporate global ESG standards, are not involved in disputable activities and are not part of the more intensive carbon emitters. These companies must also be contributing to the United Nation's stated Sustainable

Development Goals which have been designed to help identify key development areas for governments and countries to focus on to end poverty, face climate change and achieve sustainable development. The Index is also focused on companies exhibiting lower volatility and ensures there is constant regional and sectoral diversification at all times. The Index is rebalanced annually and each company in the Index is given a fixed, equal weight of 2%.

VIGEO EIRIS

Vigeo Eiris is a global provider of environmental, social and governance (ESG) research to investors and public and private companies. They evaluate the level of integration of sustainability factors into an organisation's strategy and operations and undertake a risk assessment to assist investor and

company decision-making. Vigeo Eiris have partnered with Solactive for the purposes of this Index to assess the ESG credentials and the contribution to the UN's Sustainable Development Goals for every company prior to its inclusion in the final Index.

WHAT ARE THE UNITED NATIONS (UN) SUSTAINABLE DEVELOPMENT GOALS (SDGs)

The SDGs are a set of 17 universal goals adopted by UN member countries in 2015 to guide international cooperation on achieving sustainable prosperity,

facing climate change and ending poverty.

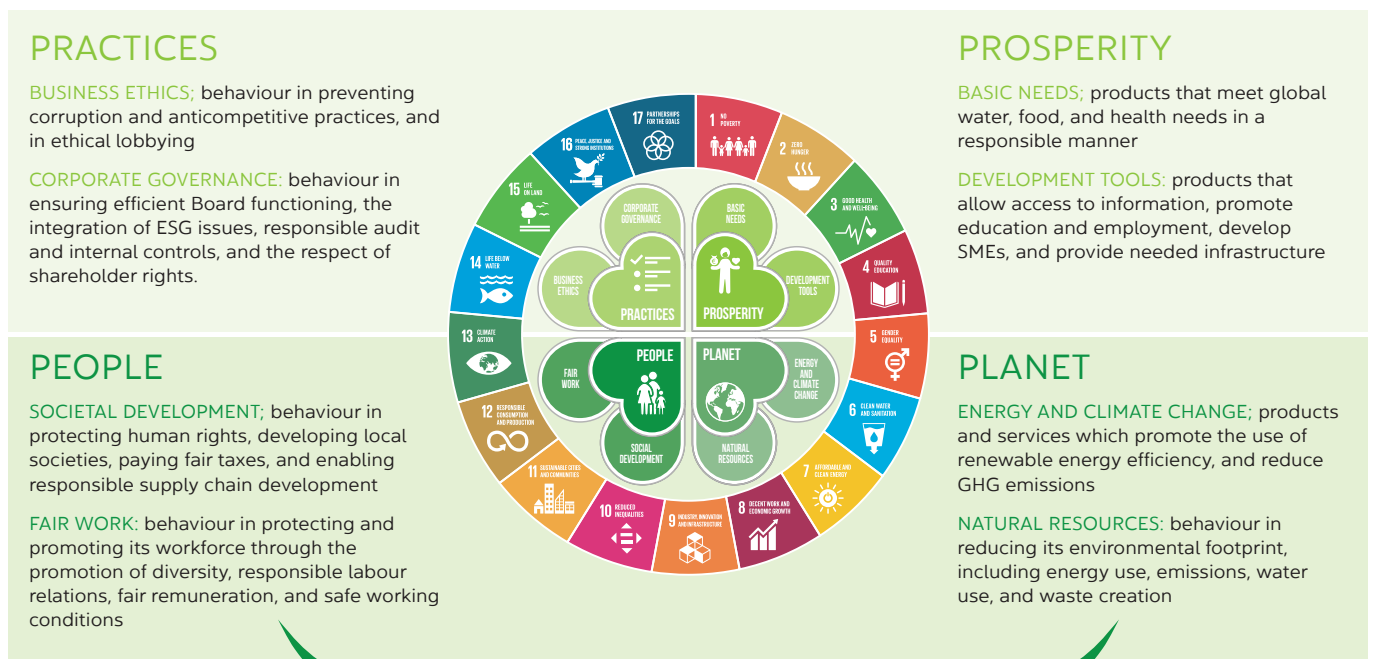

WHAT ARE THE UN SUSTAINABLE DEVELOPMENT GOALS (SDGs) CONTINUED

Some of the SDGs are targeted at governments rather than corporates and some have overlapping relationships. In order to create a framework for equity investments based on these SDGs, Vigeo Eris has developed a methodology which is employed by the Index.

This methodology defines distinct areas for corporate action and identifies strong corporate contributors through:

- Their product offering
- Their behaviour

THE METHODOLOGY AT A GLANCE

CORPORATES EVALUATION ON

- THEIR PRODUCT OFFERING**
Goods and services which answer fundamental social and environmental objectives
- THEIR CORPORATE BEHAVIOUR**
Operation of business activities in a way that raise standards of corporate social responsibility

SUSTAINABLE PRODUCT OFFERINGS

The product or service must have a clear, positive net impact on sustainable development, and at least a significant amount of the companies revenue must come from their involvement in such sustainable products. For example, food

suppliers with products designed to fight nutritional deficiencies or producing early life food, and healthcare companies producing essential medical equipment or sanitation products.

SUSTAINABLE BEHAVIOUR

The company must exhibit leading sustainable behaviour in their sector. This is focused on how the company treats the environment, their employees, society, ethics and governance, in order to achieve sustainable development. Companies must score highly on

leadership, implementation and results factors. For example technology companies that are reducing use of rare earth materials and food supply companies that are supporting integration of labour rights into contracts with suppliers.

INDEX CONSTRUCTION

**Step 1 - ESG Control****Step 2 - SDGs Methodology****Step 3 - Financial Filters**

50 companies
- rebalanced yearly

Exclusion of Companies

- With an ESG score below their region average, as measured by Vigeo Eiris
- Involvement in disputable activities such as alcohol, gambling, weapons, tobacco, pornography
- Intensive carbon emitters

Selection of companies contributing to the SDGs

- A significant part of their activity dedicated to sustainable products
- Or a leading sustainable behaviour in their sector

Final Determination of Index Parameters

- Focus on companies exhibiting lowest volatility characteristics
- Sector Diversification by ensuring maximum 25% of stocks from one sector
- Geographic Diversification by ensuring minimum 10% and maximum 50% of stocks from the same region (Europe, America, Asia)
- Volatility Control for Index capped at 8%
- Adjustment Factor of 3% applied

RISK MANAGEMENT

The Index contains a volatility/risk control feature that is designed to keep the overall Index volatility close to 8%. The aim of the volatility control mechanism is to provide a more stable level of return to investors. It acts as a limit to how much risk can be taken by the Index but can also act to limit the amount of performance that can therefore be generated. In summary, in periods of low volatility (below 8%) the mechanism will increase Index exposure to the performance of the underlying 50 companies, up to a maximum of 100% exposure. In periods of high volatility (above 8%) the mechanism will reduce the exposure to the companies, and

replace the exposure with a cash allocation.

The aim of the volatility control is to protect investors from volatile downward markets when fund performance is falling. However in periods of rapidly increasing markets and high volatility it can potentially result in underperformance as exposure to the fund performance is reduced.

The formula to determine the level of exposure to the Index is to divide the target volatility of 8% by the actual level of volatility, up to a maximum of 100% exposure. For example:

| LEVEL OF VOLATILITY | FORMULA | INDEX EXPOSURE |
|---------------------|--|----------------|
| 6% | $8\% \text{ Target Volatility} / 6\% \text{ Actual Volatility}$ | 100% Maximum |
| 8% | $8\% \text{ Target Volatility} / 8\% \text{ Actual Volatility}$ | 100% |
| 16% | $8\% \text{ Target Volatility} / 16\% \text{ Actual Volatility}$ | 50% |

DIVIDENDS AND THE ADJUSTMENT FACTOR

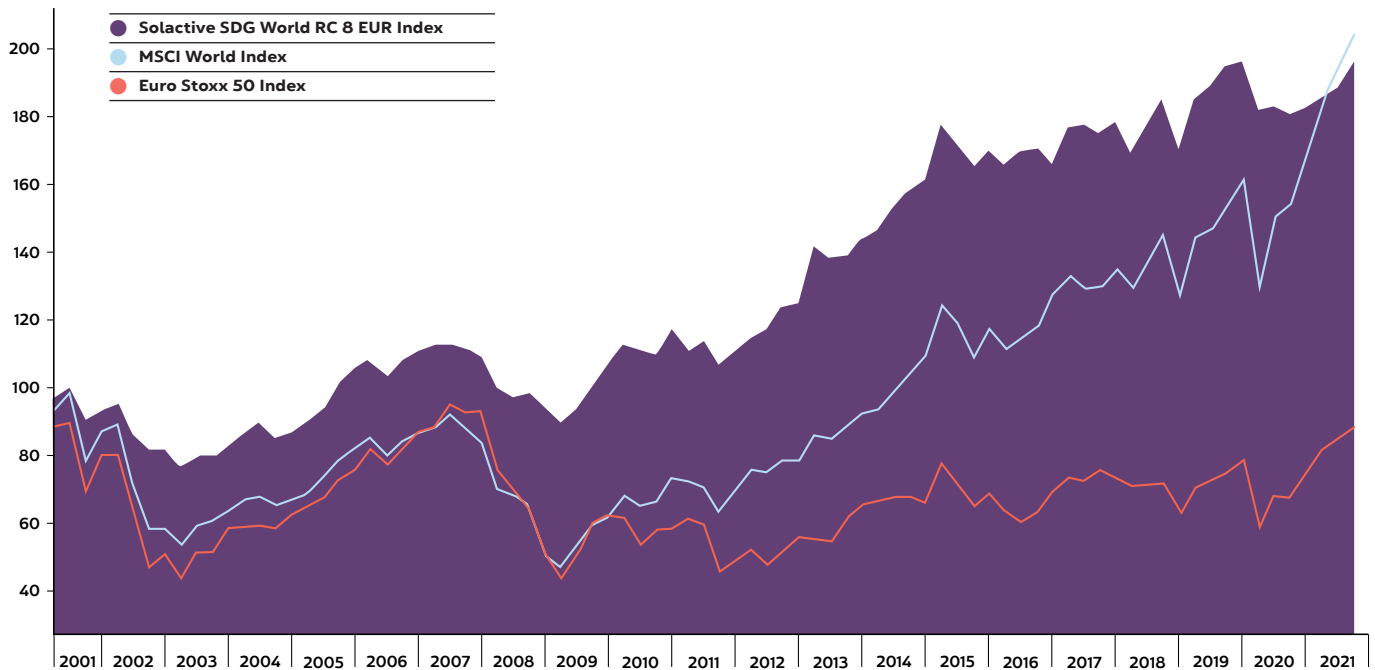

The Index performance is calculated by reinvesting the dividends paid by the companies selected in the Index and then reducing the total performance by a 3% annual adjustment factor. This adjustment factor acts like a synthetic fixed dividend which is removed prior to

the calculation of the final Index performance. The fixed dividend of 3% may be higher than the actual dividends paid by the companies selected in the index and can act as a drag on the performance of the index in this situation.

HISTORICAL PERFORMANCE ANALYSIS LIVE AND SIMULATED

In the below chart and table we have illustrated the performance of the Solactive Index and compared it to the MSCI World Index and the Euro Stoxx 50 Index as the two primary benchmarks for global and European equity performance respectively. The rules behind how companies make their way into each Index are very different so performance should be expected to differ but the below provides a simple profile of how the Solactive Index would have/had fared over multiple economic cycles. Performance over the period from 29th December 2000 to August 2021 has shown strong overall growth

across multiple economic cycles. The volatility control has protected the Index in downturns but means the strong growth periods conversely are not picked up as well. The best example of this is from the start of 2020 to end of March 2021 where the very strong rebound in equities from the bottom of the COVID crisis has not been experienced by the Solactive Index, however, this is an abnormal period. In more normalised conditions, which we are basing our view on the Index on, the performance should be more in line with the historical track record pre-COVID.

| | SINCE 2001 | 15 YEARS | 10 YEARS | 5 YEARS | 3 YEARS | 1 YEAR | YTD |
|------------------------------------|------------|----------|----------|---------|---------|--------|--------|
| Solactive SDG World RC 8 EUR Index | 94.98% | 83.92% | 85.54% | 14.27% | 6.47% | 7.54% | 7.10% |
| MSCI World Index | 104.58% | 150.68% | 216.33% | 72.36% | 42.32% | 29.61% | 21.04% |
| Euro Stoxx Index | -12.07% | 10.18% | 82.29% | 38.81% | 23.68% | 28.23% | 18.12% |

Source: Bloomberg as of August 31st 2021. Performance is quoted cumulatively, net of fees and gross of tax. The Solactive Index was launched in September 2016 so performance prior to this date is simulated.

Warning: Actual or simulated past performance is not a reliable guide to future performance.

HOW WOULD THIS BOND HAVE PERFORMED

In order to demonstrate how the Bond would have performed in the past we carried out a series of tests to determine the simulated past performance of the product, assuming we launched the same Bond every day from the start of the backtest. The backtest starts from the first available date of simulated Index data, which is January 2010, and applies the same level of participation, and capital at risk, over the 5 year term. In total there were 1,714 observable results to analyse. The returns shown below illustrate the historic Index Performance multiplied by the 200% participation rate in the Bond and added to the initial amount invested.

RESULTS OF HISTORICAL PERFORMANCE ANALYSIS

| | CAPITAL PLUS RETURNS |
|----------------------|----------------------|
| Minimum | 99.7% |
| Maximum | 160.0% |
| Average | 146.8% |
| Recent 5 Year | 129.0% |

Source: BNP Paribas as at August 2021.

Warning: Actual or simulated past performance is not a reliable guide to future performance.

ILLUSTRATION OF POTENTIAL RETURN SCENARIOS FOR INVESTORS

The below table illustrates a number of potential investment scenarios to assist in explaining how this Bond operates. Capital security is fixed at 90% so regardless of the Index performance the minimum investment return will be -10% resulting in 90% of capital being returned. Any negative Index performance from 0% to -10% will be

experienced by the investor on a one for one basis meaning if the Index is down -5% over the term then investors capital will be reduced by 5% at maturity. In terms of positive Index performance this will be multiplied by the participation rate of 200% up to a maximum Bond performance of 60%.

| AMOUNT INVESTED | INDEX PERFORMANCE | BOND PARTICIPATION RATE | TOTAL PERFORMANCE | TOTAL BOND PERFORMANCE | % BOND RETURN |
|-----------------|-------------------|-------------------------|-------------------|------------------------|---------------|
| £100,000 | -30% | 200% | 0.0% | £90,000 | -10.0% |
| £100,000 | -10% | 200% | 0.0% | £90,000 | -10.0% |
| £100,000 | -5% | 200% | 0.0% | £95,000 | -5.0% |
| £100,000 | 0% | 200% | 0.0% | £100,000 | 0.0% |
| £100,000 | 5% | 200% | 10.0% | £110,000 | 10.0% |
| £100,000 | 10% | 200% | 20.0% | £120,000 | 20.0% |
| £100,000 | 20% | 200% | 40.0% | £140,000 | 40.0% |
| £100,000 | 25% | 200% | 50.0% | £150,000 | 50.0% |
| £100,000 | 35% | 200% | 60.0%* | £160,000 | 60.0% |

*total return capped at 60%

Source: BCP.

Warning: The figures above are provided only to demonstrate how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the actual Performance of the Index which cannot be predicted in advance. Warning: The value of your investment may go down as well as up, you may get back less than you invest.

COUNTERPARTY SELECTION

BNP Paribas is the guarantor of the Issuer of the Certificate. The Issuer is BNP Paribas Issuance B.V., which is a 100% owned subsidiary of BNP Paribas, and investors will have capital exposure to the senior credit risk of BNP Paribas Issuance B.V. and BNP Paribas. In the event of a senior debt default by BNP Paribas Issuance B.V. and BNP Paribas investors' capital is at risk. BNP Paribas is ultimately responsible for the payment of any return of capital and any investment

return due from the Certificate. As a result it is imperative that the guarantor has a strong and sound financial profile and high credit strength. Investors in the BCP GBP Enhanced Equity Bond should familiarise themselves with the guarantor risk they are exposed to and the information below provides some of the key facts and figures behind BNP Paribas which led BCP to select them as the preferred guarantor for this product.

ABOUT THE GUARANTOR

- BNP Paribas is one of the largest financial services groups in the world with more than 193,319 employees in 68 different countries. (Source: BNP Paribas as of August 2021).
- BNP Paribas market capitalisation as of August 2021 was €67 billion (Source: Bloomberg).
- BNP Paribas is a French credit institution (bank) authorised and supervised by the European Central Bank ('ECB') and the Autorité de Contrôle Prudentiel et de Résolution (ACPR) (the French Prudential Control and Resolution Authority) and regulated by the Autorité des marchés financiers (the French financial markets regulator) (AMF).
- BNP Paribas current credit ratings are in the table below:

| CREDIT RATING | FITCH | MOODY'S | S&P |
|---------------|----------|---------|--------|
| BNP Paribas | AA - | Aa3 | A+ |
| Outlook | Negative | Stable | Stable |

Source: Bloomberg as at August 2021

- BNP Paribas Issuance B.V. is a 100% owned subsidiary of BNP Paribas and will act as Issuer of the Certificate.
- The return of your capital secure amount and any growth due is dependent on BNP Paribas Issuance B.V. paying back the amounts due under its obligations on the Certificate. Ultimately, the investor bears a credit risk on BNP Paribas as the guarantor of BNP Paribas Issuance B.V. This is called guarantor Risk.
- BNP Paribas Issuance B.V. is the flagship issuer of BNP Paribas with over €94 billion EUR in outstanding issuances. Source: BNP Paribas, as of 30th June 2021.

Warning: If BNP Paribas were to default, you will lose some or all of your investment and potential return.

CREDIT RATINGS

One of the factors you may wish to take into account when reviewing a counterparty is its long term credit ratings. These are the opinions of a range of credit rating agencies regarding the long term security of the counterparty.

A high rating of a counterparty from one or more of the credit rating agencies is not a guarantee that the Issuer will meet its obligation to pay the amount due from the Bond. Fitch and Moody's are independent ratings agencies that research and grade the ability of financial and other institutions to make the payments due from the Security issued and/or guaranteed by them.

By way of example, Moody's highest possible rating is Aaa, followed by Aa1, Aa2, Aa3, A1, A2, A3, Baa1 and Baa2. These 9 ratings along with their Baa3 rating are generally regarded as investment grade (i.e. of higher quality). A rating outlook assesses the potential direction of a long term credit rating view over the intermediate term. The term considered varies between credit rating agencies; Fitch looks at a 12 to 24 month period, while Moody's says its outlooks are 'over the medium

term'. In determining a rating outlook, consideration is given to any changes in the economic and fundamental business conditions. An outlook is not necessarily a precursor of a rating change or future credit watch action.

- Positive means that a rating may be raised.
- Negative means that a rating may be lowered.
- Stable means that a rating is not likely to change.
- Under review, either positive or negative means a rating may be raised or lowered in the short term.

All references to the credit rating are correct as at August 2021. Credit ratings are subject to change during the offer period and during the term of the Bond. Ongoing information about the ratings of the Counterparty is available from BCP. Please refer to your financial adviser if you have any queries regarding credit ratings.

Warning: If BNP Paribas were to default, you will lose some or all of your investment and potential return.

KEY EVENTS AND DATES

| Closing Date | Initial Valuation Date | Start Date | Final Averaging Dates (Monthly) | Final Maturity Date |
|-------------------|------------------------|--------------------|---|---------------------|
| 21st October 2021 | 28th October 2021 | 11th November 2021 | 28th April 2026 to 28th October 2026 | 11th November 2026 |

TARGET MARKET ASSESSMENT / IS THIS BOND RIGHT FOR YOU?

When designing an investment product BCP spend a considerable amount of time ensuring the product features closely match the investment requirements of the target market we are distributing to. Below we have provided a simple checklist of product features that we encourage all investors

to review, alongside their financial advisor, in order to ensure the product accurately meets an individual's demands and that the product is appropriate for their specific investment needs. The below checklist should be reviewed in conjunction with the entirety of the product brochure.

INSIDE THE TARGET MARKET

- You have read the brochure and you understand how this investment works
- You understand that you can withdraw your investment anytime during the term in normal market conditions, but if you withdraw early, the encashment amount may be more or less than the capital secure amount
- You have Sterling to invest and intend to invest for the full 5 year investment term
- You want to benefit from the performance of the Index
- You understand that positive performance of the Bond may be less than the actual performance of the underlying Index over the term of the Bond
- You understand that the actual dividends paid by the companies may be less than the adjustment factor applied to the Index and the relative performance of the Index will be impacted negatively in this circumstance
- You have some knowledge of, and experience in, investments which allows you to understand the risks associated with this investment
- Your investment objective for this Bond is capital growth and you do not require income
- You understand that you will lose up to 10% of the capital invested if the investment return at maturity is negative
- You understand that if BNP Paribas were to default you will lose some or all of your investment and potential return
- You understand and accept the risks associated with this investment
- You understand that the total maximum Return on the Bond is 60%

OUTSIDE THE TARGET MARKET

- You do not understand how this investment works
- You are not willing to risk any of your capital
- You have not read the warnings and risk disclosures in this brochure
- You do not have sufficient knowledge of or experience in investments to understand the risks associated with this investment
- You require a regular income on your investment
- You are not willing to accept the risks associated with this investment
- You are not prepared to accept BNP Paribas Issuance B.V. and BNP Paribas credit risk
- You require a guaranteed return on your investment
- You require a return on your investment above the maximum return provided by the Bond
- You do not have Sterling to invest and you intend converting currency to sterling for the purposes of making an investment

HOW DOES THE BCP GBP ENHANCED EQUITY BOND WORK?

Your entire investment is allocated to the BCP GBP Enhanced Equity Bond. At the end of the 5 year Term, the percentage performance (gain or loss) of the Index is calculated. Positive Index performance will be multiplied by 200% to determine the return to be added to the original investment amount. The return is capped at 60%, equivalent to 12% gross per annum (CAR 9.9%) over the investment term.

Where the Index performance is negative at the end of the Term, there will be a 1% loss of capital for every 1% fall in the Index subject to a maximum loss of 10%. The Bond offers 90% capital security at maturity. You may encash the BCP GBP Enhanced Equity Bond before maturity, see section headed "Do I have access to my Investment?".

BOND STRUCTURE

Investors in the BCP GBP Enhanced Equity Bond are investing in a 5 year capital protected certificate issued by BNP Paribas Issuance BV, a 100% owned subsidiary of BNP Paribas which is the guarantor of BNP Paribas Issuance BV. BCP Asset Management is the distributor of the Bond and European Depository Bank SA, Dublin Branch, will act as the Custodian of the Security on your behalf. A custody account will be

set up in the name of BCP, who will hold the Security on behalf of investors at EDB. European Depository Bank SA, Dublin Branch is supervised by the Commission de Surveillance du Secteur Financier (CSSF) in Luxembourg and is regulated by the Central Bank of Ireland for conduct of business rules. BNP Paribas has not sponsored or endorsed the Bond in any way.

SUITABILITY

The Bond is not suitable for investors who require regular income. The Bond is suitable only as a capital growth investment. The return on the Bond at maturity will depend on the Performance of the Index and will only be determined at the end of the term. Your money is not invested in the Index, therefore, you do not benefit from any dividends paid by the Index, during the term of the Bond. In order to protect the Performance of the Index from volatility towards the end of the term, the Final Price will reflect the average price of the Index on a monthly basis over the final 6

months of the 5 year Term. The effect of averaging is to protect returns in a falling market but conversely it may restrict growth in a rising market. A Performance Fee of 1% will be paid to BCP if the gross return of the Bond is 18% or above. This Performance Fee is paid by BNP Paribas to BCP and does not impact the gross return paid to investors. Any Performance Fee applies at maturity. The return on your investment in this product may be affected by changes in currency exchange rates.

CAPITAL SECURE AMOUNT

Capital security is provided at maturity by BNP Paribas Issuance B.V. and guaranteed by BNP Paribas. In the event BNP Paribas Issuance B.V. and BNP Paribas fail to meet its liabilities, you

could lose some or all of your money. Your investment is not covered by any compensation schemes covering counterparty default.

Warning: If you invest in this product, at maturity you could lose up to 10% of the money you invest. Warning: If you cash in your investment before the final maturity date you may lose some or all of the money you invest. Warning: The value of your investment can go down as well as up.

CHARGES

100% of your investment is allocated to the Bond and any returns generated are based on 100% of the invested capital, not your invested capital minus any

applicable fees. There are no annual management fees.

Total fees for the Bond are 4.50% (or £900 for an investment of £20,000). From the total fee received, European Depository Bank SA, Dublin Branch will receive 0.15% (or £30 for an investment of £20,000) for custody and execution services. If you have invested via an authorised investment intermediary they will be paid a fee of 2.0% (or £400 for an investment of £20,000), equivalent to 0.40% per annum. This fee is payable to BCP if you do not deal with us through an intermediary. BCP Asset Management will receive a fee of 2.35% (or £470 for an investment of £20,000) for the distribution, marketing and administration of the Bond, equivalent to 0.47% per annum. The total fee and the fee payable to BCP quoted above may vary depending on the fee payable to BCP by BNP Paribas on any subsequent increases or decreases to the initial amount hedged for this product. The fee to BCP will depend primarily on the option price,

the market interest rate and the Bank's funding rate at the time. The actual % payable to BCP will be notified to you after the start date of this product. In relation to any withdrawal outside of the final maturity dates a 0.5% (or £100 for an unwind of £20,000) administration charge (subject to £100 minimum charge) payable to BCP will apply to the full realised market value (which may be more or less than the amount invested). BNP Paribas may, in normal market conditions, apply a charge which is equivalent to a deduction from the realised market value of no greater than 0.5%. The full realised market value may be more or less than the capital secure amount. We also may receive from or provide to our counterparties and/or intermediaries minor non-monetary benefits; which may arise in the normal course of business (e.g. attendance at training, conferences or off site meetings that may include a minor sustenance).

WHERE DOES MY INVESTMENT GO?

You are purchasing a BNP Paribas Issuance B.V. Certificate. BCP has appointed European Depository Bank SA, Dublin Branch (EDB) who are authorised to act as the custodian of the Security. Investor funds will be transferred from BCP to EDB who in turn will transfer the funds to BNP Paribas

before the start date. At the Final Maturity Date or earlier if encashed, funds will be transferred from BNP Paribas back to EDB who in turn will transfer funds back to BCP. BCP will advise you of the amount received and request your written instructions.

DO I HAVE ACCESS TO MY INVESTMENT?

The Certificate will be listed on the Luxembourg Stock Exchange and are tradable investments. BNP Paribas endeavours to make a secondary market in the Certificate, subject to it being satisfied that normal market conditions prevail. There is no guarantee liquidity will be available at the time you wish to encash. Any prices indicated will be dependent upon a number of factors including the remaining time to the Maturity Date, the BNP Paribas Issuance B.V. and BNP Paribas' credit risk, the performance and volatility of the underlying Index, interest rates, exchange rates, credit spreads and any incidental costs. BNP Paribas may be the only market maker in the Certificate

which may affect liquidity. Therefore, investors will, in normal market conditions be able to sell the Certificate at any time during the term. The price at which the Certificate can be sold will be the open market value determined by BNP Paribas which will take fees and charges into account and can be lower than the initial amount invested or the capital protected amount. Deductions for fees and charges are not made uniformly throughout the life of the Bond, but are loaded onto the early period. If you withdraw from the Bond in the early period this will impact on the value you will receive.

BCP GBP ENHANCED EQUITY BOND

At the end of the 5 year Term, if the Performance of the Index is positive the Bond will pay 100% of the original investment plus 200% of the Performance achieved by the Index over the investment term. The return is capped at 60%, equivalent to 12% gross

per annum (CAR 9.9%) over the 5 year investment Term. If the Performance of the Index is negative over the term of the Bond, there will be a 1% loss of capital for every 1% fall in the Index, subject to a maximum loss of 10%.

Warning: The figures above are provided only to demonstrate how the Bond works; they should not be taken as an indication of potential returns. The return to you will depend on the actual Performance of the Index which cannot be predicted in advance. Warning: The value of your investment may go down as well as up, you may get back less than you invest.

WHAT HAPPENS IF I DIE?

In the event of the death of a sole investor prior to the expiry of the Term:

a) the Bond may be transferred into the names of the deceased investor's personal representatives or of any other person nominated by such personal representatives, or

b) the Bond may be redeemed, subject to normal probate regulations, at its realisable value as determined by BCP based on a calculation by the Bank, at the discretion of the Bank. The redeemable amount will be calculated primarily by reference to the market value of the assets, the remaining term to maturity, and the prevailing interest rates at the time. The amount redeemed may be more or less than the capital invested. Where the Bond is held in joint names it will, upon the death of one of the investors and upon production of such evidence of death as BCP or the Bank may require, be transferred into

the name(s) of the surviving investor(s). Where an investment is made on behalf of a self-directed or self-administered pension plan, in the event of death of a member prior to the expiry of the Term, the Bond may be redeemed at its realisable value as determined by BCP based on a calculation by the Bank which may be more or less than the capital invested. The proceeds from such redemption will be paid to the trustees of the plan, or the investing life company as appropriate. A 0.5% (or £250 for an investment of £50,000) administration charge (subject to £100 minimum) payable to BCP will apply to the full realised market value (which may be more or less than the amount invested) of any early exit from this investment. BNP Paribas may apply a charge which is equivalent to a deduction from the realised market value of no greater than 0.5%.

WHAT ABOUT TAX?

The Bond is a Certificate and all investment returns will be paid gross of tax. The current Irish legislation does not allow for a clear categorisation of how this product should be treated for tax purposes. It is our understanding that this product should be subject to Capital Gains Tax where applicable. Revenue law and practice can change at any time; the tax treatment will depend

on the individual circumstances of each client and may be subject to change in the future. BCP are not tax advisers and are not offering tax advice on this product. Investors should satisfy themselves independently of the taxation treatment of the Bond, in relation to reporting requirements and the implications of non-disclosure.

WHAT IS A CERTIFICATE?

A Certificate is an instrument issued by a bank that confers a debt obligation on the bank to the benefit of the investor. A Certificate can therefore be classified as a bank debt security or a bank bond. The BCP GBP Enhanced Equity Bond is in the form of a Certificate issued by BNP Paribas Issuance B.V., a 100% owned subsidiary of BNP Paribas, and is

guaranteed by BNP Paribas. This is a senior unsecured debt instrument that ranks equally with all other senior unsecured debt issued by BNP Paribas Issuance B.V.. The Certificate will be listed on the Luxembourg Stock Exchange and can therefore be generally classified as a listed bond.

PERFORMANCE FEE

If at the end of the 5 year term, the gross return of the Bond is 18% or above, then a Performance Fee of 1% will be paid to BCP. Any Performance Fee will be paid to BCP by BNP Paribas and will not impact the gross return paid

to the investors. Any Performance Fee paid will be in addition to the initial fee paid to BCP and your intermediary, where applicable, as described on page 16.

ANALYSING THE RISK OF THE INVESTMENT

As per the Key Information Document (KID) that accompanies this Bond brochure, and can be found on the bcp. ie website, a standardised risk analysis (called a Summary Risk Indicator or SRI) has been developed by the European regulatory authorities to allow investors compare and contrast, amongst other features, the risk of an investment according to pre-defined criteria and

with a standardised calculation format. The SRI is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because BNP Paribas are unable to repay the capital protected amount plus any return.

RISK ANALYSIS

The BCP GBP Enhanced Equity Bond is classified as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are unlikely to impact BNP Paribas Issuance B.V. and BNP Paribas' capacity to pay you. You are entitled to receive back at least 90% of your capital at maturity. Any

amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you redeem your investment before the maturity date.

PLEASE NOTE, if BNP Paribas Issuance B.V. and BNP Paribas are unable to repay what is owed, you could lose your entire investment. The risk indicator assumes you keep the product until maturity. The actual risk can vary significantly if you redeem your investment (in exceptional circumstances) at an early stage and you may get back less than you invested.

WHAT ARE THE RISKS INVOLVED IN THE BOND?

RISK OF CAPITAL LOSS

If you invest in this Bond at maturity you can lose up to 10% of the money you invest.

COUNTERPARTY/ CREDIT RISK

Your capital is exposed to the credit risk of BNP Paribas as the guarantor of the Certificate. If BNP Paribas Issuance B.V. and BNP Paribas default on its senior debt obligations you may suffer partial or full capital loss and potential return.

If the Issuer and Guarantor become insolvent or cannot make the payments on the Bond for any other reason, you will lose some or all of your investment.

Your investment in the Note ('the instrument'/'the security') with BNP Paribas ('the institution') is subject to the Bank Recovery and Resolution Directive. Below we provide some information on the potential treatment of investments in resolution or insolvency.

- the instrument is unsecured and therefore subject to the resolution regime or normal insolvency if the institution fails;
- the impact of the institution's failure on investors depends crucially on the ranking of the liability in the insolvency creditor hierarchy (which may have changed because of the introduction of depositor preference), on the amount of losses incurred and on the resolution strategy applied;
- in the event of resolution:
 - the outstanding amount may be reduced to zero or the security may be converted into ordinary shares or other instruments of ownership for the purpose of stabilisation and loss absorption;
 - a transfer of assets to a bridge bank or in a sale of business may limit the capacity of the institution to meet repayment obligations, or may result in partial losses or no losses if the relevant liabilities are also transferred;
 - the maturity of instruments or the interest rate under these instruments can be altered and the payments may be suspended for a certain period;
 - the liquidity of the secondary market in any unsecured debt instruments may be sensitive to events in financial markets;
 - existing liquidity arrangements (for example repurchase agreements by the issuing institution) might not protect clients from having to sell these instruments at a substantial discount below their principal amount, in the event of financial distress of the issuing institution;
 - liability holders have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal insolvency proceedings (as a consequence of the application of the 'no creditor worse off' principle). This assessment must be based on an independent valuation of the institution. Compensation payments, if any, may be considerably later than contractual payment dates (in the same way that there may be a delay in recovering value in the event of an insolvency), although resolution, in principle, preserves value compared with insolvency

INFLATION RISK

Any inflation during the term of the Bond will reduce the real value of your investment over time.

CONCENTRATION RISK

Your investment in the Bond should only be considered as part of your overall investment portfolio. You should not put all, nor a large part, of the money you have available for investment into any one product, or with any one counterparty.

MARKET RISK

External factors could affect national economies, regions or an asset class and cause a fall in value of the equity markets and could influence the returns payable under the Bond.

LIQUIDITY RISK

BNP Paribas aims to provide a secondary market for the Bond during the investment term. However, certain exceptional market circumstances may have a negative impact on the liquidity of the Bond and result in the partial or total loss of your initial capital invested. Extreme adverse conditions may even render the Bond entirely illiquid, which may make it impossible to sell the Bond before the Final Maturity Date. It is envisaged that investors will hold the Bond for the full 5 year term and all investors should consider the term before investing.

EARLY REDEMPTION RISK

If the Bond is sold before the Final Maturity Date then the value of the Bond may be less than the original investment amount and the investor may lose some or all of the invested amount. An administration charge will apply, please see page 16 for more details.

LACK OF COMPENSATION SCHEME PROTECTION

Your investment is not covered by any investor compensation schemes in the event of a default of BNP Paribas Issuance B.V. and BNP Paribas.

TAXATION RISK

Current Irish taxation legislation does not allow for a clear categorisation of the product as being subject to Capital Gains Tax. There is a risk an alternative taxation basis may apply.

CURRENCY RISK

The return on your investment in this product may be affected by changes in currency exchange rates.

This product is suitable for investors with current Sterling assets and conversion to invest should not be considered.

Before making any investment in this product Investors should refer to the prospectus and final terms associated with it; these are available on request. It is recommended that investors read carefully the "risk factors" section of the Bond's prospectus. The prospectus is available on the BNP Paribas website.

INDEX DISCLAIMER: Solactive AG ("**Solactive**") is the licensor of Solactive Sustainable Development Goals World RC 8 EUR Index (the "Index"). The financial instruments that are based on the Index are not sponsored, endorsed, promoted or sold by Solactive in any way and Solactive makes no express or implied representation, guarantee or assurance with regard to: (a) the advisability in investing in the financial instruments; (b) the quality, accuracy and/or completeness of the Index; and/or (c) the results obtained or to be obtained by any person or entity from the use of the Index. Solactive reserves the right to change the methods of calculation or publication with respect to the Index. Solactive shall not be liable for any damages suffered or incurred as a result of the use (or inability to use) of the Index.

Warning: If you invest in this product, at maturity you could lose up to 10% of the money you invest. Warning: If you cash in your investment before the final maturity date you may lose some or all of the money you invest. Warning: The value of your investment can go down as well as up.

3. CLIENT ORDER EXECUTION POLICY A

Client orders to BCP must be in writing, signed by the client. Clarifications of orders may be communicated by recorded telephone call.

Orders will be processed according to the date they are received. They will be transmitted to the relevant entity in the order all documentation (including that required to comply with BCP's Anti- Money laundering policy) to the standard required by BCP to process the order, is received.

4. YOUR INVESTMENT

- 4.1 Prior to the Start Date your money will be held in a Client Asset Account in the name of BCP Asset Management DAC. Your money will

be held with other clients' assets as part of a common pool so you do not have a claim against a specific sum in a specific account; your claim is against the client assets pool in general. In the case of any such pooled client account we will ensure that such account is in the name of BCP Asset Management DAC, is designated as a client asset account and that only we are entitled to issue instructions in respect of this account. This client asset account will be operated in accordance with the Irish Client Asset Regulations 2017. Funds will be transferred to the Custodian before the Start Date to facilitate the purchase of your Investment. No interest will be paid to you in relation to the period up to the Start Date.

- 4.2 When the Custodian receives your Investment, it will allocate such monies to a custody account in the name of BCP Asset Management DAC Client Asset Account, your Investment will be held with other clients' assets as part of a common pool so you do not have a claim against a specific sum in a specific account; your claim is against the client assets pool in general. This account will be operated in accordance with the Irish Client Asset Regulations 2017.
- 4.3 The Security will be registered in the name of the Custodian, and documents of title, if any, will be kept in the custody of the Custodian. The Security will be registered collectively in the name of the Custodian and the Security held in respect of the Investment will be recorded and separately identified by the Custodian.
- 4.4 After the start of the Investment, following the purchase of the Security in respect of your Investment, BCP will send you written confirmation of your Investment. We will provide you with quarterly statements for this Investment. Prices for BCP products will also be updated at least quarterly, and available to view online via vespro.bcp.ie
- 4.5 Your money is not invested in the shares of the companies in the Index and, therefore, the investment does not benefit from any dividends distributed by the Index

5. CUSTOMER CATEGORY

BCP, as Lead Distributor, will treat you as a retail client for the purposes of MiFID. This means you will receive the highest level of MiFID protection. You may request to be treated as a professional client providing you meet additional criteria however, if you do so, you will lose some of the protections afforded to retail clients under MiFID.

6. AVAILABILITY

- 6.1 The closing date for applications is 21st October 2021, or earlier if fully subscribed (the 'Closing Date'). The Closing Date is the final date on which BCP can receive fully completed applications for the Bond.
- 6.2 The minimum investment is £20,000.
- 6.3 The Bond is available to individuals who are aged 18 or over investing on their own behalf, religious orders, charitable bodies, companies and pension funds. Individuals under 18 may be facilitated by way of a flexible trust.

7. CANCELLATION RIGHTS

- 7.1 You have the option to cancel your application to invest in the Bond by 21st October 2021. In order to cancel written notice must be received by BCP by 21st October 2021.

7.2 BCP reserves the right, at its sole discretion, not to proceed with this Bond at any time up to and including the Start Date. In such circumstances your Investment amount will be returned to you without interest.

8. WITHDRAWALS

- 8.1 Daily liquidity is available in normal market conditions. The value of any withdrawal is dependent on a number of factors and is subject to market movements. Only full encashments are permitted, partial encashments will not be facilitated.
- 8.2 In the event of death of a sole investor prior to the expiry of the 5 year Term:
- (a) the Bond may be transferred into the names of the deceased investor's personal representatives or of any other person nominated by such personal representatives, or
- (b) the Bond may be redeemed, subject to normal probate regulations, at its realisable value as determined by BCP and the Bank, which may be more or less than the capital secure amount.
- 8.3 Where the Bond is held in joint names, it will, upon the death of one of the investors and upon production of such evidence of death as BCP or the Bank require, be transferred into the name(s) of the surviving investor(s).
- 8.4 Where an investment is made on behalf of a self directed or self administered pension plan, in the event of death of a member prior to the expiry of the 5 year Term, the Bond may be redeemed, subject to the terms of the rules of the underlying scheme or policy, at its realisable value as determined by BCP and the Bank which may be more or less than the capital invested. The proceeds from such redemption will be paid to the trustees of the plan, or the investing life company as appropriate.
- 8.5 A 0.5% administration charge (subject to £100 minimum) payable to BCP will apply to the full realised market value (which may be more or less than the amount invested) of any early exit from this investment. BNP Paribas may apply a charge which is equivalent to a deduction from the realised market value of no greater than 0.5%.

9. GROSS RETURN OF THE BOND

- 9.1 Performance of the Index is calculated as $(\text{Final Price} - \text{Initial Price}) / \text{Initial Price}$ where (1) the Initial Price of the Index is the closing level of the Index on 28th October 2021 or the next business day for the Index; (2) The Final Price for the Index is the simple average of the Asset values taken at monthly intervals from and including 28th April 2026 to 28th October 2026. Where a price is not available on the 28th of a month due to it not being a business day for pricing purposes, the price used will be the next business day regardless of whether a price is available on the 28th.
- 9.2 If the Performance of the Index is positive at the end of the Term, the Gross Return of the Bond is calculated as $(\text{Performance of the Index} \times \text{Participation})$ where Participation is 200%. The Gross Return of the Bond is capped at 60% (CAR 9.9%). This will be added to your original capital invested to calculate the amount due to you at maturity.
- If the Performance of the Index is negative at the end of the Term, there will be a 1% loss of capital for every 1% fall in the Index subject to a maximum loss of 10%. This loss, up to a maximum of 10%, will be deducted from your original capital invested to calculate the amount

due to you at maturity. The minimum you can receive at maturity is 90% of your original capital invested.

If the Performance of the Index is zero at the end of the Term, you will receive back your original capital invested.

- 9.3 The Performance Fee will be 1% where the Gross Return of the Bond is 18% or above (i.e. the gross realisable value is 118% of the capital invested). Any Performance Fee will be paid to BCP by BNP Paribas and it will not impact the Gross Return of the Bond paid to the investors.
- 9.4 No interest will be paid to you on your initial investment in relation to the period up to 11th November 2021.
- 9.5 The Gross Return of the Bond will be paid gross of tax.
- 9.6 Should an adjustment event occur during the 5 year Term which affects the valuation of the Index, BCP shall be entitled, after consultation with the Bank and at its absolute discretion, to adjust any relevant terms of the Bond to preserve the economic equivalent of your investment prior to the occurrence of such event.
- 9.7 Should any event occur during the 5 year Term which in BCP's absolute discretion constitutes a substantial change to the Index, force majeure or hedging disruption, BCP shall be entitled to substitute the Index with another underlying, to unwind the Bond at the then current market value or to suspend operations of the Bond during any period in which such event continues and thereafter until the end of the 5 year Term. Neither BCP, the Bank, nor their agent(s) shall be liable for any loss howsoever suffered by the investor if there is any total or partial failure of performance resulting from any such event or any other causes beyond the control of BCP, the Bank or their agent(s).

10. MATURITY

At maturity, you will have the option to access your maturity proceeds, or you may have the option to reinvest the proceeds into other products which may be available at that time. Your financial adviser and BCP will contact you before maturity to ask your preference. At maturity, your proceeds will be transferred back to a BCP client asset account and will be held by BCP in accordance with the Irish Client Asset Regulations 2017. If you do not provide us with an instruction, matured funds will be held in this BCP client asset account until they are returned to you by cheque or electronic funds transfer, unless BCP has notified you otherwise in writing. Negative interest may be charged on any unclaimed maturity funds.

11. JOINT ACCOUNTS

Unless otherwise agreed in writing with BCP, the withdrawal of funds at maturity will require the consent of all account holders.

12. COMPLAINTS

Any complaint about the sale of this Bond should be made to your financial adviser or the intermediary through whom you invested or BCP Asset Management DAC, 71 Upper Leeson Street, Dublin 4, D04 XK68 if relevant. Any complaints referred to BCP relating to your Investment will be investigated thoroughly and in accordance with the BCP's Complaints Policy. Details of the Complaints Policy are available on request. If you are dissatisfied with the outcome of BCP's efforts to resolve your complaint, it is possible that you may be able to refer your complaint to the Financial Services and Pensions Ombudsman.

13. CONFIDENTIALITY

BCP observes a strict duty of confidentiality about your financial affairs. Save at your request or with your consent, BCP will not disclose any details relating to your investment to anyone else other than in the following circumstances:

- to comply with a Court Order.
- to comply with a direction or request from a statutory or regulatory body entitled to such details.
- in accordance with any applicable legislation.

14. DATA PROTECTION

BCP Asset Management DAC complies with the requirements of the General Data Protection Regulation 2018.

“Information” means any information given by you or on your behalf in connection with your Investment Application to us. Where you are not a natural person, Information also includes any information you provide to us in respect of your officers, directors or employees, in this regard the use of the term ‘you’ in this Section 14 Data Protection refers to you or such individuals as appropriate. Information includes any further information which may be given at a later stage either in writing, by email at a meeting or over the telephone including that furnished in connection with any application for any product/service available through us.

The Information will be used by us for the purposes of processing your applications, managing and administering your relationship with us and any products/services for which you have completed an application. The information will also be used for the prevention of money laundering, financing of terrorism or fraud, and compliance with any legal and regulatory obligations which apply to us.

The Information may be disclosed to BCP Asset Management group, third parties including, but not limited to, the intermediary acting on your behalf, product producers/service providers to which you have submitted an application or to which such submission is being contemplated, the providers of services to us, the Administrator, distributors, the Trustee and/or their respective delegates and agents of any Fund you are invested in. We may also disclose your data for legitimate business interest & legal obligations, to auditors, the Central Bank of Ireland, the Irish Revenue Commissioners, other relevant regulators and tax authorities. For further information on Foreign Account Tax Compliance Act (FATCA) or Common Reporting Standard (CRS) please refer to Irish revenue website at <http://www.revenue.ie/en/business/aeoi/index.html> or the following link: <http://www.oecd.org/tax/automatic-exchange/common-reporting-standard/> in the case of CRS only.

RIGHT OF ACCESS, RECTIFICATION OR ERASURE

You have the right at any time to request a copy of any “personal data” (within the meaning of the General Data Protection Regulation 2018 and the Irish Data Protection Act 2018) that we hold in relation to you and have it corrected if it is inaccurate or out of date. To exercise your Right of Access or to update your details under your Right of Rectification or Erasure please email your request to Dataprotection@bcp.ie.

DATA RETENTION

Information submitted by you when making an enquiry may be retained by us for a period of up to 12 months from the date of the enquiry. Investor’s information will be held for a period of at least 6 years after the ending of the client relationship.

DATA SECURITY

BCP Asset Management DAC intend to strictly protect the security of your personal information and carefully protect your data from loss, misuse, unauthorised access or disclosure, alteration or destruction. We have taken appropriate steps to safeguard and secure information held by us.

15. ASSIGNMENTS

Investor(s) may not transfer (either by assignment or by novation) or create any security over any or all its rights, interests and obligations in the Bond without the prior written consent of BCP.

16. BOND OPERATION

Neither BCP, the Bank, the Custodian nor their agent(s) will be liable for any loss you may suffer if BCP, the Bank, the Custodian or their agent(s) is prevented from providing any service as a result of industrial action, power failure or other cause beyond the reasonable control of BCP, the Bank or their agent(s). The Issuer acts as Issuer only and is not liable for the responsibilities of BCP to you in relation to the Bond, this brochure or for any other information provided to you by BCP. The Bank is not offering financial or tax advice to BCP or investors. It does not make any representation, express or implied, as to the investment terms or the performance of the Bond. Any such statements herein, as well as all other statements regarding the Bond, are the sole responsibility of BCP.

17. VARIATION

BCP reserves the right to amend, vary or supplement these Terms & Conditions, during the Term of the Bond. This may be for one of the following reasons:

- (a) due to a change in legal, regulatory or taxation requirements to which BCP is subject, or a change in the manner in which same are applied;
- (b) to comply with an order of a court or other analogous authority;
- (c) to make the Terms & Conditions fairer to you or to correct a mistake (provided that such a correction would not adversely affect your rights);
- (d) to enable your Bond to be managed more effectively, or to provide you with additional options within your Bond. Where possible you will be notified of any changes at least 30 days in advance of changes taking effect.

18. GOVERNING LAW AND JURISDICTION

These Terms and Conditions are governed by and shall be construed in accordance with the laws of Ireland. By signing the application form for the Bond, you agree that any dispute may be resolved by the courts of Ireland.

- 18.1 These Terms and Conditions and all non-contractual obligations arising out of or in connection with them shall be governed by Irish law and will become effective on acceptance by BCP of your signed Application Form.
- 18.2 The issue of the Security is governed by English law and your rights relating to that instrument may differ were it subject to Irish law.

19. GENERAL

Should any conflict arise between the terms and conditions in this brochure and the terms and conditions in the BNP Paribas Confirmation with BCP, the terms and conditions in the BNP Paribas Confirmation shall take precedence.

20. TELEPHONE RECORDING

For the prevention of fraud, money laundering and the financing of terrorism and for security, training, compliance and monitoring purposes all telephone calls to and from BCP may be recorded.

21. DISCLAIMER

Reference within this document to particular assets or indices are included only to indicate the basis upon which the investment return is calculated, not to indicate any association between BCP or the Issuer and the relevant fund or the relevant index provider, nor does such reference indicate any endorsement of the investment by the relevant provider. Neither BNP Paribas Issuance B.V. nor BNP Paribas has prepared this document and therefore accepts no responsibility for its contents, nor any liability for any losses in connection with the information contained herein. BCP has prepared this document and accepts responsibility for its contents.
