D INVESTMENT EXPERIENCE & UNDERSTANDING

THIS SECTION IS NOT REQUIRED IF YOU ARE ONLY APPLYING TO INVEST IN A DEPOSIT.

The purpose of this section is to allow BCP to meet its regulatory obligations to ensure all investors in BCP products have the appropriate level of investment knowledge and experience, that would allow them properly evaluate the features and the risks involved in the BCP product. Please complete relevant sections.

(A) INVESTMENT UNDERSTANDING: PLEASE COMPLETE EACH QUESTION BELOW BY INDICATING IF THE STATEMENT IS TRUE OR FALSE.

Counterparty Risk

The capital protection element of BCP products is provided by a bank, sometimes referred to as a counterparty. If this counterparty were to default on its obligations any capital protection provided by the counterparty would cease to apply and you may receive back less than the capital protected amount.

True False

Early Access

Some products allow you to cash-in (surrender) the investment early in normal market and funding conditions. If you do cash-in the investment prior to its maturity date, capital protection no longer applies and you may receive back more or less than your initial investment/capital protected amount.

True False

Decrement Indices (if applicable)

Decrement indices are indices which typically re-invest dividends received, but have a fixed annual deduction, called a decrement. They are used to enhance product terms, but where the decrement is higher than the dividends received this will act as a drag on index performance.

True False

Conditional capital protection/Soft capital protection (if applicable)

Some products provide conditional capital protection, sometimes referred to as "soft" capital protection. This means that the capital protection only applies if certain criteria are met e.g. as long as a fund or index has not fallen by more than a set %. For example if a product had a capital protection barrier of 50%, the investor would get 100% of their initial investment if the index had fallen by 40% at maturity; but if the index had fallen by 55% at maturity, the investor would only receive 45% of the initial investment.
